Installation Tools

1. Position the trailer hitch to align four holes.

See figure 1

2. Tighten four 2.5cm screws into the connection part between two iron sheets and the trailer hitch's body part with a 13mm wrench.

See figure 2

3. After tightening the four holes, align the reserved hole positions of the pedal.

See figure 3

4. Tighten two 5cm screws into two aligned holes of the pedal with a 13mm wrench.

See figure 4

5. Tighten two 5cm screws into two aligned holes of the pedal with a 13mm wrench.

See figure 5

6. Put the rear part of the trailer hitch in the joint.

See figure 6

7. Insert the big latch.

See figure 7

8. Insert the small latch.

See figure 8

9. Trailer hitch installation complete. As shown in the figure.

See figure 9
