## Installation Tools

## Installation Steps

1. If the windshield sash is plastic. Directly place the mirror on strut and tighten the push rivets and flat washers with a cross screwdriver. See figure 1

2. If the windshield sash is steel, drill 4 holes with a power drill.

See figure 2

3. Tighten mounting screws and hex nut (Do not leave the flat washer) with a cross screwdriver.

See figure 3

4. Installation complete.  
As shown in the figure.

See figure 4

3. Slide the clamp toward  
the hose end.

See figure 7

### No-drill installation method

1. Mark the folding position  
according to the size of the  
struts with a pen.

See figure 1

4. Tighten the hose clamp with a  
slotted screwdriver.

See figure 4

2. Bend the clamp by a vise to an  
L-shape according to the mark.

See figure 2

5. Installation complete.  
As shown in the figure.

See figure 5
