

Dynamically disinfecting the air we breathe and the surfaces we touch

*with the combination of organic and natural
Hydroxyls and Ions.*

GUARANTEED ODOUR ERADICATION & INFECTION CONTROL

The AIRsteril Washroom Complete Range is our solution to improving air quality, sanitising surfaces and eliminating odours in washroom environments of all sizes. Our Washroom Complete Range:

- Reduces harmful viruses.
- Circulates fresh clean air.
- Breaks down unwanted bacteria.
- Attacks odours at their source.
- Removes unhealthy microbes from the air.
- Stops mould and fungi growth.
- Makes your washroom smell freshly cleaned;
- Maintains sanitized surfaces
- Clears smelly compounds in the air 24/7.

WASHROOM PROBLEMS

Designed to have the highest odour and micro-organism control capabilities of any AIRsteril product in a washroom environment, with the lowest possible power consumption.

The vandal resistant Washroom Complete Range has the flexibility to offer protection for facilities of all sizes.

In washrooms, odours and infections are created by bacteria, viruses, mould, fungi and volatile organic compounds in the air and on all exposed surfaces. Fragrances or masking agents offer no benefits in terms of hygiene, and the associated health risks persist unchanged.

Cleaning and disinfecting alone are only a partial solution and cannot stop ongoing surface contamination. AIRsteril kills both surface and airborne bacteria and viruses. Its efficacy has been certified to do this by the United Kingdom Health Protection Agency.

Area Size	10m2	20m2	30m2	40m2
High footfall washroom up to 1,000 visits a day	WC10	WC20	WC30	WC30X
Extreme footfall washroom up to 10,000 visits a day	WC20	WC30	WC30X	WC40X

**Eliminate odours
and improve
washroom hygiene**

The Healthy Air Solution

DYNAMICALLY DISINFECTING THE AIR WE BREATHE AND THE SURFACES WE TOUCH

- Kills pathogens (bacteria, fungi and viruses including:
 - Common cold and flu.
 - COVID-19.
 - Influenza.
 - Stomach flu.
 - Legionella.
 - Methicillin Resistant Staphylococcus Aureus (MRSA).
 - Escherichia coli.
 - Klebsiella pneumoniae and Pseudomonas aeruginosa.
- Kills mould and mould spores.
- Kills odour.
- Removes Particulate Matter (PM2.5 & PM10).
- Removes Volatile Organic Compounds (VOCs).
- Safe to use around people, animals and plants.
- Offers continuous, efficient, 24/7 risk-free protection.
- Simple to install and cost-effective to run.
