This Testosterone Propionate solution from ZPHC is characterized by the dosage strength of 100mg/ml and is sold in 10 ml vials, which are convenient to use for several intramuscular injections. Test Prop is the steroid, which has the potential to provide impressive results within cutting cycles.

Make sure your circadian rhythm is functioning normally. When it's dark, your body releases more melatonin. When it's light, it reduces melatonin output and increases appropriate amounts of more excitatory hormones.

Test Propionate both helps to get rid of fat and to preserve lean and dense muscles. As a result, a muscle relief gets significantly improved. Besides, using this steroid, athletes feel stronger and more durable and can exercise in a more intense way. In addition, at our online store, you can order the Test Prop solutions in multidose vials. On the black market (countless of online pharmacies) the Testosterone Propionate prices range from \$45 to \$90 per 10ml (100mg per ml) vial. The price difference is usually due to quality and purity of raw materials used, strength, and availability on the local market.

Hepatotoxicity Side Effects of Testosterone Propionate. As it has been discovered, testosterone is having absolutely no hepatotoxic effects and for this reason, liver toxicity is very unlikely to happen while administering Testosterone Propionate. There's a study out there which has examined the potential for hepatotoxicity with high doses of testosterone by administering 400 mg of this hormone per day (which means it has been administered a total of 2,800 mg per week) to a group of male ...
