Trade Name: Deca Durabolin Greece Substance: Nandrolone Decanoate Country of Production: Greece Form: 200mg / 2ml.(100mg/1ml.) Recommended dosage: 400-1000mg per week Nandrolone Decanoate by Norma Hellas, Greece is an injectable steroid which contains 100mg per ML of the hormone nandrolone deconoate. This ester makes hormone release from injection sight very slow. Bodybuilders often find that an injection schedule of twice per week is more than sufficient in keeping steady blood levels. . #sivakarhikeyan #sk #thalapathi #doctor #doctortamilmovie #sivakarhikeyansongs #sobabysong #anirudh #anirudhsongs #tamsong #tamillovesong #tamillovestatus #tamillovescene #tamillovesongs?? #tamilonesidelove #tamilonesidelovestatus #tamiltrendingsongs #tamiltrending #tamilmassstatus #tamilcinema #tamilwhatsappstatus #sparrowjerin #chellammasong #ayyayyokodayile

Nandrolone-Decanoate is a 19-nor anabolic steroid also known as Decadurabolin Norma Greece, with Nandrolone being the steroid attached to the massive Decanoate ester. Designed for the sole purpose of increasing mass, it largely functions by increasing hemoglobin and red blood cell count as well as dramatically promoting nitrogen retention. In Spain, the maximum strength of Deca is 50 mg/ml. But in Greece, where many older people use this drug medically to improve their quality of life, there are higher-dosed brands like Norma Hellas®, Extraboline®, and of course Deca-Durabolin®.

Durabolin (ORGANON) 200mg/2ml Greece - so called yellow top deca. It's directly from Greece
pharmacy - I think "judge_dread" will agree with me. I also hope, this will help people, because there
are so many fakes of this deca around black market. While I would NEVER suggest for any of my
clients to use them, and would actually steer them away from the idea if they asked, I am also aware of
friends and colleagues that have had huge success with them ??? [read more here](#)
