

# BLOCK PARTY BLOCK #22

## Wishful Blooms

Designed for the Studio 180 Designs

~ Corner Beam® ~ Diamond Rects® ~ Corner Pop® I ~ Corner Pop® II

Created By: Tina Dillard

When we think of springtime flowers and events, we think of Wishful Blooms. This block uses four Studio 180 Design tools: Diamond Rects®, Corner Beam®, and two of the Corner Pop® tools.

In this block, be sure to pay attention to how your side triangles are arranged in the Diamond Rects® Units. Additionally, in Units D & E, you'll be using the Corner Pop® II and Corner Pop® I tools. With these units, you should start with the Corner Pop® II side of the unit first. After the unit is trimmed, move on to the Corner Pop® I side. Be sure to place your triangles correctly because both Type 1 and Type 2 units are needed for this block. This block can be challenging, but just focus on one unit at a time and you'll be fine.

Using the blocks cutting chart below, determine the size you wish to make. Refer to the Diamond Rects®, Corner Beam®, Corner Pop®, and Corner Pop® II tool instructions. It is recommended that you press the seams open when constructing the block.

If you don't have the Studio 180 Design tools, please visit your local quilt shop or order them directly from [www.quiltingaffection.com](http://www.quiltingaffection.com) or [Studio180Design.net](http://Studio180Design.net).
