THE ORIGINAL WITH GINGER PIECES

Kloster Kitchen was founded in 2015 with a lot of time and passion. Our first product – the IngwerTRINK – was released at the beginning of 2016. With it we established a completely new beverage category in the DACH region.

Since founding until the end of Q3/2023 we have already sold more than

52 MILLION PORTIONS

A GOOD STORY

An old monastery recipe was the inspiration behind what we have made possible with our own specially designed manufacturing process. Each product contains genuine, finely chopped pieces of ginger!

PREMIUM GINGERSHOT WITH ORGANIC QUALITY.

Pure organic ingredients make all our products what you want them to be: a natural, perfectly flavoured and lightly spicy ginger shot highlight in premium quality. And completely without artificial additives or ingredients.

USP: GINGER PIECES

Recipe instead of mixture!

The difference is simple: While other producers mainly combine some kind of juice with a bit of ginger concentrate, we add real pieces of ginger to our shots.

These not only make for an exceptionally delicious taste, but also for a tangible drinking sensation.
