Anabolic steroids, also known more properly as anabolic-androgenic steroids (AAS), are steroidal androgens that include natural androgens like testosterone as well as synthetic androgens that are structurally related and have similar effects to testosterone. They increase protein within cells, especially in skeletal muscles, and also have varying degrees virilizing effects, including ... China will criminalize steroid use next year to prove it is serious about fighting doping in sports ahead of the 2022 Beijing Winter Olympics. China has promised to criminalize the use of anabolic steroids and other performance-enhancing drugs (PEDs) sometime next year according government officials. The new anti-doping legislation will include prison terms for athletes ... #ANABOLICS #ROIDTEST #MolecularNutrition #SportSupplementReferenceGuide #SportsNutrition #Supplements #NPC #IFBB #Gains #Whey

Anabolic steroids work differently from other drugs of abuse; they do not have the same short-term effects on the brain. The most important difference is that steroids do not directly activate the reward system to cause a "high"; they also do not trigger rapid increases in the brain chemical dopamine, which reinforces most other types of drug taking behavior. Anabolic steroids are synthetic (man-made) versions of testosterone. Testosterone is the main sex hormone in men. It is needed to develop and maintain male sex characteristics, such as facial hair, deep voice, and muscle growth. Women do have some testosterone in their bodies, but in much smaller amounts.

Steroids are used in medicine to treat certain conditions, such as inflammation and hypogonadism. Anabolic steroids are more commonly associated with their use in sport to enhance muscle mass. Most steroids used by casual bodybuilders are often acquired from underground sources without any verification of the product's efficacy. "We have to educate people," says Thomas O'Connor, aka the "Anabolic Doc," who specializes in patients seeking recovery from anabolic-steroid use. O'Connor does not advocate the use of any of ...
