TRACK-Guide III Display System: Complete with High Accuracy Auto Guidance Kit Available Now!

Trimble is pleased to announce the TRACK-Guide™ III display system to the aftermarket. This complete steering solution includes a display, guidance controller, steering motor, accuracy and UT capability for a complete out-of-the-box solution.

The 8" (203mm) TRACK-Guide III display arrives with TRACK-Leader, TRACK-Leader Auto and an ISOBUS Universal Terminal (UT) app pre-installed. All together, this display system creates a precision auto guidance solution with outstanding value and performance.

TRACK-Guide III Display System Components

Display	Guidance Controller	Steering
<p>TRACK-Guide III</p>  <p>AEF-certified, 8" touch screen</p> <p>Installed applications:</p> <ul style="list-style-type: none"> • TRACK-Leader • TRACK-Leader AUTO • ISOBUS UT • Import .shp files 	<p>NAV-900 Base</p>  <p>Most advanced GNSS receiver</p> <p>Included features:</p> <ul style="list-style-type: none"> • Multi constellation • 220 Channel • CenterPoint® RTK • 1 Yr CenterPoint RTX 	<p>SAM-200 Motor</p>  <p>Leading assisted steering</p> <p>Included features:</p> <ul style="list-style-type: none"> • Autopilot™ Motor Drive (APMD) • Slow speed operation • Unlimited reverse operation

Vehicle Compatibility

Autopilot™ Motor Drive (APMD) kits cover the most common vehicles including brands such as Case IH, New Holland, John Deere, Fendt, Massey Ferguson, Challenger and many more.

Correction Services

Licenses for correction services reside on the NAV-900 guidance controller and are managed on the TRACK-Guide III display. Select the correction service best suited for your farm.

TRACK-Guide III Accessories for CenterPoint RTK/VRS Corrections

To receive RTK or VRS corrections, use either an Ag-820 radio or a modem with a built-in client and adapter cable.

Note: Modems without the in-built client will *not* work with the TRACK-Guide III.
