EXPIRY DATE/SHELF LIFE

Although handmade soaps usually get better with age, we recommend using our soaps within 12 months of purchase. Our scented soaps should be used within 3 months after removing them from the clear packaging. Although the soaps will not be "spoiled" after that time, you may notice some changes as natural soap ages

BENEFITS

FAQS

HOW MANY SILK ARGAN SOAP BARS DO YOU HAVE IN THE RANGE? Check out our website as we are consistently adding more variations..

WHAT IS THE SIZE OF THE SILK ARGAN SOAP BAR? 100 grams - 80mm(Width) x 58mm(Height) x 22mm(Depth)

MOST SOAPS CONTAIN SULFATES THAT STRIP THE OILS FROM MY SKIN... DO THE SILK ARGAN SOAP BARS HAVE SULFATES IN? Absolutely NOT we have NO Sulfates in any of the Silk Products including this Argan Soap Bar

I WANT TO ONLY PURCHASE AUSTRALIAN MADE PRODUCTS ARE THESE MADE HERE IN AUSTRALIA? They sure are.. we are Proud that these Argan Hand made Soaps are made here in QLD.

CAN I USE THE ARGAN SOAPS DAILY? Yes you can

I NOTICED THAT THE ARGAN SOAPS HAVE PALM OIL.. IS THIS CERTIFIED SUSTAINABLE PALM OIL? YES it sure is. Palm Oil is one of the best stabilisers in Natural Soaps to make them firm and long lasting, however Silk only uses Certified Sustainable Palm Oil. Environmentalists agree that boycotting palm oil is not the answer..The manufacturing sector employs about 6 million people worldwide, about 2.2 million of whom are smallholder farmers, who often live at the edge of poverty and rely on palm oil to feed, shelter, and educate their families. Certified palm oil manufacturers have in the past few years adopted policies that promise no deforestation, no peat development, and no exploitation.

I DON'T WANT TO BUY ANY PRODUCTS THAT ARE TESTED ON ANIMALS ARE THE ARGAN SOAP BARS TESTED ON ANIMALS? No we LOVE our Animals, we do not test on them. These Argan Soap bars are also Vegan

KEY INGREDIENTS

Activated charcoal – effectively cleanses the skin, unclogs pores, removes deeper impurities, and dead skin cells. The result is smooth, supple, and even-toned skin

Argan Oil – (Argania Spinosa Kernel Oil) is obtained from the fruit kernel of the Argan Tree. Rich in Vitamin E, antioxidants, omega-6 and omega-9 essential fatty acids all of which assist in keeping skin nourished and hydrated

Rice Bran Oil – the main benefit of rice bran oil to the skin is its wonderful deep-moisturizing capability. This is due to its combination of vitamin E and fatty acids, which go deep into skin to hydrate. ... Rice bran oil is light and penetrates easily, so it's not likely to increase the oiliness of your skin.

Coconut oil – is linked to some potential benefits for skin, including reducing inflammation, keeping skin moisturized and helping heal wounds. The medium-chain fatty acids found in coconut oil also possess antimicrobial properties that can help treat acne and protect the skin from harmful bacteria

Sunflower Oil - When it comes to skincare today, sunflower seed oil is a great source of vitamin E, rich in nutrients and antioxidants, and is effective for combatting skincare issues like acne, inflammation, general redness and irritation of the skin. Sunflower oil has emollient properties that help the skin retain its moisture

Castor Oil - Castor oil is rich in ricinoleic acid, a monounsaturated fatty acid. These types of fats act as humectants and can be used to moisturize the skin. The fatty acids in castor oil can also promote the growth of healthy skin tissue, making it helpful in restoring uneven skin tones

Pumice Stone - Pumice is best known as a natural exfoliating ingredient for cosmetics. This cosmetic herb can be included in all kinds of recipes to add some exfoliating properties to your various cosmetic recipes. Plus, some people will even use a whole pumice stone to exfoliate rough, callused skin. So, you know that this cosmetic ingredient works well and can get your skin feeling its absolute best.

Pine Essential Oil - Pine essential oil is extracted from the commonly known tree pine and its scientific name is Pinus Sylvestris. The tree's origin is believed to be in Austria and Russia and later on it spread to other parts of the world. Pine is the common tree used world over as Christmas tree and it is a species of tree which is available all over the world. Pine essential oil is one product which is popularly available from this tree and it is quite easy to produce pine essential oil.

Tea Tree Essential Oil - Tea Tree Oil is a plant extract which has been extensively researched within the last few years as it is believed to have many healing benefits which can treat multiple skin conditions. The essential oil is extracted from the Melaleuca alternifolia, a shrub like plant which has several antiseptic and antimicrobial properties.

Eucalyptus Essential Oil - Eucalyptus Essential Oil is a purifying, cleansing, clarifying, and immune-boosting oil that is ideal for use on skin, in aromatherapy, and as a surface cleaning agent and a fabric freshener. There are around 500 varieties of Eucalyptus that are used for the production of essential oils. They share common healing benefits and a characteristic fresh, camphoraceous scent, though some varieties have slight nuances in aroma. Eucalyptus Oil is a popular ingredient in balms, inhalers, massage blends, and dental hygiene products for its soothing, stimulating, and anti-bacterial properties

WARNING: Avoid getting into the eyes. If product gets into eyes wash out thoroughly with water.

CAUTION: Contains Nut Oils. It is recommended to always review the full ingredients lists and conduct a patch test prior to using the product for the first time- apply a small amount to a discreet patch of skin, like the inside of your arm. If any signs of redness or skin irritation occurs, do not use.

Vegan and cruelty-free products are made without any animal or animal-derived ingredients, and, they are not tested on animals at any point in the production process.
