ARGAN HAIR & SKIN TREATMENT | MOROCCAN ROSE

PRODUCT SHEET

FAQS

WHAT SIZES ARE AVAILABLE? 250ml

WHAT HAIR TYPE IS THE ARGAN HAIR & SKIN TREATMENT SUITABLE FOR? Argan Hair & Skin Treatment is suitable for all hair types

CAN I USE ARGAN HAIR & SKIN TREATMENT TO REDUCE BLOW DRYING TIME AND TAME MY FLYAWAYS AND HELP CONTROL FRIZZ?

Absolutely! Argan Hair & Skin Treatment contains ingredients that have proven to reduce blow drying time. Simply apply a small amount on towel dried hair before combing and blow drying. To tame flyaways and control frizz add a small amount from mid-lengths to ends for a smooth finish

WILL THE ARGAN HAIR & SKIN TREATMENT MAKE MY HAIR OILY? Argan Hair & Skin Treatment is a non-greasy ultra-light serum that does not coat the hair or skin. For fine hair use sparingly and for thicker hair use a little more

DO I USE ARGAN HAIR & SKIN TREATMENT ON WET OR DRY HAIR? Apply Argan Hair & Skin Treatment on towel dried hair prior to blow drying to help reduce blow drying time and add to dry hair to tame flyaways and frizz

CAN I USE THE ARGAN HAIR & SKIN TREATMENT AS A BODY MOISTURISER? Yes, you can use the Argan Hair & Skin Treatment as a body moisturiser. Apply a small amount to dry skin or scalp to provide moisture, shine and hydration

CAN I USE THE HAIR & SKIN TREATMENT ON MY FACE? Yes, the Argan Hair & Skin Treatment can be used on the hair and the skin. As with all products, always avoid contact with the eyes

WHAT FRAGRANCE IS IN THE ARGAN HAIR & SKIN TREATMENT? This Argan Hair & Skin Treatment is infused with moroccan rose fragrance

DO SILK OIL OF MOROCCO PRODUCTS CONTAIN SILICONES? Some of our Products do contain silicone or silicone derivatives and are used in some of our products for a number of different functions mainly as a conditioning agent and to act as a carrying agent for other ingredients. It is also used to help reduce blow drying time and to help protect against heated styling tools as well as enhancing wet and dry combing. Cyclopentasiloxane is used to help deliver and spread other ingredients to hair. As it is volatile silicone derivative, it evaporates upon application after delivering the key ingredients that provide moisture and shine and is water soluble It is important to note that there are literally hundreds of different silicones available for different functions in the marketplace. Some good and some not so good. We only use silicone blends that are designed for cosmetic & haircare formulations that evaporate upon application and are water soluble once formulated into the Product

KEY INGREDIENTS

A Blend of Functional Cosmetic Grade Silicones – (Cyclomethicone, Cyclopentasiloxane & Dimethiconol) derived from mineral components, silicones impart a soft silky feel to the hair & skin. They help to protect hair against heat and support protection. They are lightweight and have excellent spreading capability, offer less tackiness and conditions the hair & skin. They are used to help protect the hair fibres & add shine. Cyclopentasiloxane is used to help deliver & spread other ingredients to hair & skin. As it is a volatile silicone derivative, it evaporates upon application after delivering all the key ingredients that provide moisture and shine and is also water soluble

Cold Pressed Certified Organic Argan Oil – (Argania Spinosa Kernel Oil) is obtained from the fruit kernel of the Argan Tree rich in Vitamin E, antioxidants, omega-6 and omega-9 essential fatty acids all of which assist in keeping hair & skin nourished and hydrated

Quality Fragrance – Moroccan Rose
