**STEP 1:** Starting with a freshly cleaned face apply the Silk Argan Antioxidant Primer all over the face with your fingers, massaging it into the skin.

**STEP 2:** Apply your shade of the Argan Liquid Foundation all over the face using the Silk Vegan Foundation Brush.

**STEP 3:** Then to contour, apply the Argan Contour Stick in "Dark" to the hollows of the cheeks and along the hairline sparingly, and then blend in with the Silk Nude Blending Sponge building the product as you go.

**STEP 4:** Lightly dust the Argan Pressed Powder Foundation in the same shade as your foundation over your entire face with the Silk Retractable Kabuki Brush. This will provide more coverage to the face and help the look hold throughout the day.

**STEP 5:** Using the Vegan Powder Brush, take a light amount of the Argan 7-in-1 Bronzer and gently swipe along the cheekbones where you previously applied your contour and along your forehead, making sure to blend the powder into your hairline for a seamless look.

**STEP 6:** With the Silk Vegan Blush brush, apply a small amount of "Rainbow Peach" from the Sunkissed Blush, Bronze & Glow Palette to the apples of your cheeks, blending it nicely with your bronzer.

**STEP 7:** Now you're going to highlight your face. Using the Vegan Large Fan Brush, lightly dust shade "Pick Me Up" from the same Sunkissed Blush, Bronze & Glow Palette onto the bridge and tip of the nose, cupid's bow and cheekbones above your bronzer.

**STEP 8:** To shape your brows apply a layer of the Silk Brow Fixing Gel to lock them in place. We want them to be natural and fluffy looking!

**STEP 9:** With the Vegan Blending Eye Brush, blend the shade 'Latte' from the Silk x Fernando Hervas Nude Collective Eyeshadow Palette into the crease and all over the lid. Build more colour into the crease for enhanced definition.

**STEP 10:** Next we are going to create a small wing using the Vegan Angled Eye/Brow Brush with shade 'Wannabe' from the same eyeshadow palette. To

create the wing, apply the shadow as close to the lash line as possible and create a small flick at the end of the eye.

**STEP 11:** Apply a thin layer of Argan Hydrating and Volumizing Mascara to you top and bottom lashes. When dry, use the Silk Strong Hold Lash Bond Liner in Clear to apply a generous line along the upper lash line. Once tacky, add the Silk Faux Mink Lashes in Santorini. To achieve the eye look in the picture, cut the first 3rd of the lash off and apply towards the other edge of the eye.

**STEP 12:** For the lips complete the look by lining the lips with the Silk x Fernando Hervas Lip Liner in Nude 4, and top with the Silk x Fernando Hervas Lipstick in Nude 3.

**STEP 13:** For the ultimate summer glow, apply with your hands the Argan Body Glow to all exposed areas of the skin.
