Girls Night Out

ALL BRUSHES USED FROM THE
'VEGAN ROSE GOLD & WHITE' BRUSH SET

STEP 1: Starting with a freshly cleaned face, apply the Argan Antioxidant Primer all over the face with your fingers, massaging it into the skin.

STEP 2: Apply your shade of the Argan Cream Compact Foundation all over the face using the Silk Vegan Flat Foundation Brush.

STEP 3: Next accentuate the natural contours of the face using the Argan Cream Contour and Highlight Palette. With the Silk Argan Angled Blender Brush, lightly contour the face with one of the darker shades from the palette, starting at the forehead, then around the cheekbones and along the jawline in a figure 3. Use the lightest shade in the palette to brighten the under eyes by blending in with the Silk Nude Blending Sponge.

STEP 4: Lightly dust the Argan Mineral Powder Foundation in the same shade as your foundation over your entire face with the Silk Retractable Kabuki Brush.

STEP 5: Using the Vegan Powder brush, take a light amount of the Argan 7-in-1 Bronzer and gently swipe along the cheekbones where you previously applied

your contour and along your forehead, making sure to blend the powder into your hairline for a seamless look. This will add warmth to the areas where you've used a cool tone to contour!

STEP 6: Now you're going to highlight your face. Using the Vegan Large Fan Brush, lightly dust the shade Pearl from the Argan Highlighting Trio onto the bridge and tip of the nose, cupid's bow and cheekbone above your bronzer.

STEP 7: To shape your brows apply a layer of the Silk Brow Fixing

STEP 8: Using the Blending Eye Brush blend shade 'Latte' from the Silk x Fernando Hervas Nude Collective Eyeshadow Palette into the crease.

STEP 9: With the Large Shadow Brush, pat shade 'Silk', mixed with a touch of 'Amaretto' onto the eyelid. To brighten the inner corner of the eye, apply shade 'La La Land' with the Smudge Eye Brush.

STEP 10: Take the NEW Silk x Fernando Argan Eyeliner in shade 'Dark as Night' and smudge it along the top lash line, bringing it out a touch further than the eye to create a winged effect. Top this lightly with

the NEW Silk x Fernando Argan Eyeliner in shade 'Like a Boss' for more dimension. You can use the Silk Eye/Brow Brush to create the wing for a cleaner look.

STEP 11: Smudge the Silk x Fernando Argan Eyeliner in shade 'Dark as Night' underneath the lower lash line and drage out to join the wing.

STEP 12: Brighten the eye by applying the NEW Silk x Fernando Argan Eyeliner in shade 'Beige Me Babe' on the bottom inner rim of the eye.

STEP 13: To complete the eyes, apply a thin layer of Argan Hydrating and Volumizing Mascara to your top and bottom lashes. When dry, use the Silk Strong Hold Lash Bond Liner in Black to apply a generous line along the upper lash line. Once tacky, add the Silk Faux Mink Lashes in Barcelona.

STEP 14: For the lips complete the look by lining the lips with the Silk x Fernando Hervas Lip Liner in 'Nude 4', and top with the Silk x Fernando Hervas Lipstick in 'Nude 2'.

STEP 15: For the ultimate glow, apply with your hands the Argan Body Glow to all exposed areas of the skin.
