FAQS

ARE THE SILK MELTS MADE IN AUSTRALIA? Yes

IS THE WAX USED IN THE MELTS NATURAL? Yes, the Silk Melts are made from the Oil of the Soybean vegetable NOT Paraffin Wax

ARE THE SILK MELTS BIODEGRADABLE? Yes they are unlike paraffin, soy wax is water soluble and can be cleaned with hot soapy water if spilled

DO THE MELTS BURN CLEAN OR SMOKEY? Soy is clean burning, meaning it will not stain or blacken home surfaces

CAN A MELT GO OUT OF DATE? No not really please make sure you store in a cool dry place and out of direct sunlight

ARE THE FRAGRANCES USED IN THE MELTS ESSENTIAL OILS OR SYNTHETIC FRAGRANCE OILS? To ensure the best performance possible in your melt range, our melt fragrance oils are designed and developed in Sydney, Australia and are completely vegan and cruelty-free. As they are produced specifically as a melt making and soap making supply, they are synthetic in substance to ensure the best performance when used in soy wax. Many of our fragrance oils do contain a high percentage of essential oils for an accurate and natural scent. Silk fragrance oils are non-toxic and do not contain palm oil.

KEY INGREDIENTS

Natural Soy Wax - Derived from the soybean. Soy wax is a hydrogenated vegetable oil that turns solid at room temperature. Soy wax is natural, non-toxic, biodegradable, renewable and sustainable. It burns clean and slower than other waxes.

Quality Australian Made Fragrances - To create an idyllic ambience and beautiful long lasting aromas.
