INGREDIENTS

Dipropylene Glycol Monomethyl Acetate, fragrance

HOW TO USE

1. Remove the cap from the Silk Diffuser Vase
2. Place Crystals from Pouch into the Reed diffuser or use them however you so wish
3. Place the reeds in the Silk Diffuser Vase so that they are submerged in the liquid and resting on the base of the glass
4. Allow the Diffuser fragrance to absorb into the reeds for approx. 5-10 minutes
5. Remove the reeds from the Silk Diffuser Vase and flip them so that the dry ends of the reeds are submerged into the liquid and rest on the base of the glass.
6. When the exposed ends of the reeds become dry, repeat the above process for an instant hit of amazing Silk Aroma.
7. To extend the life of your Silk Diffuser, keep out of direct sunlight, UV light - heat and drafts

Clear Crystal Vase

FAQS

ARE THE SILK DIFFUSERS MADE IN AUSTRALIA? Yes

HOW LONG WILL MY REED DIFFUSER LAST? Reed diffuser oils have proved to last for months depending on the environmental factors such as the air conditioning, doors open and closed and heating among other factors around your home. The Silk 200ml Diffuser oil should last for about 4-8 months depending on the temperature at home

HOW MANY MLS ARE THE DIFFUSERS? 200ml

HOW MANY REED STICKS DO WE RECIEVE? 5 white

WHAT ARE THE REED STICKS MADE FROM? Advanced fragrance technology Diffuser Fibre Sticks for fragrance diffusers. These new, synthetic Diffuser Fibre Sticks deliver improved diffusing performance compared with standard rattan/reed sticks. They are compatible with both oil base and water base diffuser liquids and are designed not to 'bleed' colour into the diffuser liquid when in use and are less likely to discolour, unlike the standard rattan/reed sticks commonly used in diffuser
