GET THE LOOK

Beautiful Bouncy Curls

STEP 1: Wash hair thoroughly with the Argan Intense Moisture Shampoo and Conditioner. As natural oils from the head struggle to reach the curls, this duo will help keep the curls from becoming dry.

STEP 2: While your hair is still wet, apply a generous amount of Argan Hair and Skin Treatment to add some slip, then detangle your hair using the Silk Detangling Comb.

STEP 3: When your hair is mostly detangled, spray

a generous amount of Argan Leave-in Conditioning Spray, and wrap hair using the Microfibre Hair Towel wrap to assist the curls to dry intact. If your hair takes too long to dry naturally, apply a generous amount of the Silk Thermal Protection & Shine Spray prior to blow drying.

STEP 4: When the hair is dry, once again apply the Hair & Skin Treatment to the hair for added hydration and moisture.

STEP 5: Next, apply the Silk Argan Curl Crème to your hands and spread evenly through the hair. The Curl Crème will help to manage frizziness and maximise curl definition.

STEP 6: To finish the look, spray a little bit more Leave-in Conditioning Spray to the curls.

STEP 7: If you feel you need more hold, use hairspray sparingly.
