'VEGAN ROSE GOLD & WHITE' BRUSH SET

STEP 1: Starting with a freshly cleaned face, apply the Argan Antioxidant Primer all over the face with your fingers, massaging it into the skin. For more glow, add a couple of drops of the Total Radiance Bronzing Liquid into your primer.

STEP 2: Apply your shade of the Argan Cream Compact Foundation all over the face using the Silk Vegan Foundation Brush.

STEP 3: With the Silk Nude Blending Sponge, blend the Argan Contour Stick (1 shade lighter than your skin tone) under the eyes, along the bridge of the nose and middle of your forehead. Also apply on the eyelids in preparation for your eye look.

STEP 4: Lightly dust the Argan Pressed Powder Foundation in the same shade as your foundation over your entire face with the Silk Retractable Kabuki Brush.

STEP 5: Next accentuate the natural contours of the face using the Argan Powder Contour & Highlight Palette. With the Silk Vegan Angled Blender Brush, contour the face with one of the darker shades from

the palette, starting at the forehead, then around the cheekbones and along the jawline in a figure 3. Now add a subtle contour to the nose using the Vegan Small Fan Brush.

STEP 6: Using the Vegan Powder brush, take a light amount of the Argan 7-in-1 Bronzer and gently swipe along the cheekbones where you previously applied your contour and along your forehead, making sure to blend the powder into your hairline for a seamless look.

STEP 7: Now you're going to highlight your face. Using the Vegan Large Fan Brush, lightly dust the Argan Body Shimmer onto the bridge and tip of the nose, cupid's bow and cheekbone above your bronzer.

STEP 8: Shape your brows using the Argan Fibre Brow Enhancer in your chosen shade. Start at the arch of the brow towards the tail. For a more natural look, use the Vegan Eyebrow Brush to blend the product towards the start of the brow. Apply a layer of the Silk Brow Fixing Gel to lock them in place.

STEP 9: With the Vegan Blending Eye Brush, into the

Silk x Fernando Hervas Nude Collective Eyeshadow Palette and dust the shade 'Silk' all over the lid, setting your concealer.

STEP 10: Using the Same Vegan Blending Eye Brush, blend the shade 'Latte' into the crease. Build more colour towards the outer corner of the eye and lightly dust over the entire lid.

STEP 11: Apply the shade 'Barcelona' lightly to the first half of the lid and the inner corner of the eye with the Vegan Smudge Eye Brush.

STEP 12: Apply a thin layer of Argan Defining Mascara to your top and bottom lashes. When dry, use the Silk Strong Hold Lash Bond Liner in Clear to apply a generous line along the upper lash line. Once tacky, add the Silk Faux Mink Lashes in Santorini. To achieve the eye look in the picture, cut the first 3rd of the lash off and apply towards the outer edge of the eye.

STEP 13: For the lips complete the look by lining the lips with the Silk x Fernando Hervas Lip Liner in Nude 6, next apply the Silk x Fernando Hervas Lipstick in Nude 3 and top with the Silk x Fernando Hervas Lip Shine Argan Gloss in Nude 2.
