ALL BRUSHES USED FROM THE
'VEGAN ROSE GOLD & WHITE' BRUSH SET

STEP 1: Starting with a freshly cleaned face, apply the Argan Antioxidant Primer all over the face with your fingers, massaging it into the skin.

STEP 2: Apply your shade of the Argan Liquid foundation all over the face using the Nude Silk Blending Sponge.

STEP 3: Continue using the Nude Blending Sponge, and blend the Argan Contour Stick to conceal (1-2 shades lighter than your skin tone) under the eyes, along the bridge of your nose and the middle of your forehead.

STEP 4: Using the Vegan Powder brush, take a light

amount of the Argan 7-in-1 Bronzer and gently swipe along the cheekbones and along your forehead, making sure to blend the powder into your hairline for a seamless look.

STEP 5: Now you're going to subtly highlight your face. Using the Vegan Large Fan Brush, lightly dust the shade POP from the Argan Highlighting Trio onto the bridge and tip of the nose, cupid's bow and cheekbone above your bronzer.

STEP 6: Shape your brows using the Argan Fibre Brow Enhancer in your chosen shade. Start at the arch of the brow towards the tail. For a more natural look, use the Vegan Eyebrow Brush to blend the product

towards the start of the brow.

STEP 7: With the Vegan Blending Eye Brush, dip back into your Bronzer and apply to the crease of your eye using light circular motions for a smooth blend.

STEP 8: Add the shade Pearl from your Highlighting Trio to the inner corners of your eyes using the Vegan Smudge Eye Brush.

STEP 9: Lightly apply the Argan Defining Mascara to the top and bottom lashes.

STEP 10: For the lips, complete the look with our Argan Vegan Lipstick in Crème Caramel, and top with the Argan Vegan Lip Balm Peach Daiquiri.
