CURL

STYLE

STEP 1: Wash hair thoroughly using the Silk REP-Hair Shampoo & Conditioner.

STEP 2: Spray a generous amount of the Argan Leave-in Conditioning Spray to wet hair then comb through.

STEP 3: Apply a small amount of the Argan Tropical Paradise Hair & Skin Treatment from mid lengths to ends for added hydration.

STEP 4: Spray a small amount of Argan Thermal Protection & Shine Spray and blow dry.

STEP 5: Now curl your hair and try to create looser curls. Alternatively you can also use hair rollers.

STEP 6: Lift hair and apply the Volumizing Dust onto

the root area and rub into the roots for volume.

STEP 7: Brush out your curls.

STEP 8: With the Silk 6-in1 Volumizing & Teasing Brush section and hold the hair firmly. Using the positive charged volume side of the Brush (Black and White Bristles) push the Brush down a few times from the ends to the roots to create a Voluminous Teased look. Now using the other side of the Brush – (white bristles) gently smooth over the volumed/Teased section to smooth and shape your hair to your desired look. By using the negative charge you are smoothing and promoting Shine without snagging, leaving the volume you created intact.

STEP 9: Loosely collect the hair at the back into a

ponytail and fasten with a small hairband. Pull a small amount of hair out from the bottom and wrap around the base of the ponytail covering the hairband, then pin in place.

STEP 10: Lift pieces of the pony tail and spray with the Silk Liquid Volumizer for a fluffy and full bodied effect.

STEP 11: Pull pieces of the hair out of the front of the ponytail to frame the face and repeat step 10.

STEP 12: Use a small amount of Argan Anti-Frizz Cream in the pony tail to add more definition and structure to the curls.

STEP 13: To finish the look, spray hair with the Argan Alcohol Free Hairspray for more hold.
