Hollywood Glam

STEP 1: Wash your hair thoroughly using the Silk Argan Volumizing Shampoo & Conditioner.

STEP 2: Comb through hair and spray hair from roots to ends with the Silk Thermal Protection & Shine Spray prior to blow-drying.

STEP 3: Blow-dry your hair.

STEP 4: Apply a small amount of the Argan Hair & Skin Treatment from mid lengths to ends for added hydration.

STEP 5: Spray more Thermal Protection & Shine Spray.

STEP 6: Now curl your hair. Try avoid using a wide barrel curler as we want the curls to be quite tight until they're brushed out. Alternatively you can also use hair rollers.

STEP 7: Lift hair and shake the Volumizing Dust onto the root area and rub into the roots for volume.

STEP 8: Lightly comb out your curls.

STEP 9: With the Silk 6-in1 Volumizing & Teasing Brush section and hold the hair firmly. Using the positive charged volume side of the Brush (Black and White Bristles) push the Brush down a few times from

the ends to the roots to create a Volumned Teased look. Now using the other side of the Brush – (white bristles) gently smooth over the volumed/Teased section to smooth and shape your hair to your desired look. By using the negative charge you are smoothing and promoting Shine without snagging, leaving the volume you created intact.

STEP 10: To complete the look, apply a small amount of Argan Anti-Frizz Cream to the mid-lengths and ends.

STEP 11: If you want more hold, generously spray hair with the Silk Argan Alcohol Free Hairspray.
