STEP 1: Starting with a freshly cleaned face, apply the Argan Antioxidant Primer all over the face with your fingers, massaging it into the skin.

STEP 2: Apply your shade of the Argan Cream Compact Foundation all over the face using the Silk Vegan Flat Foundation Brush.

STEP 3: Using the Vegan Powder brush, take a light amount of the Argan 7-in-1 Bronzer and gently swipe along the cheekbones where you previously applied your contour and along your forehead, making sure to blend the powder into your hairline for a seamless look. Use the Silk Vegan Small Fan Brush to lightly contour the nose with your bronzer.

STEP 4: Using your favourite shade from the Silk Moroccan Princess Blush Palette, use the Silk Vegan

Blush Brush and apply the blush to the apples of your cheeks, blending it nicely with your bronzer.

STEP 5: Now you're going to subtly highlight your face. Using the Vegan Large Fan Brush, lightly dust the shade Pearl from the Argan Highlighting Trio onto the bridge and tip of the nose, cupid's bow and cheekbone above your bronzer.

STEP 6: Shape your brows using the Argan Fibre Brow Enhancer in your chosen shade. Start at the arch of the brow towards the tail. For a more natural look, use the Vegan Eyebrow Brush to blend the product towards the start of the brow.

STEP 7: With the Vegan Blending Eye Brush, dip into the Argan Pressed Shadow Single in Chestnut and apply to the crease of your eye using light circular

motions for a smooth blend, and lightly dust across the whole lid.

STEP 8: Add the shade Pearl from your Highlighting Trio to the inner corners of your eyes using the Vegan Smudge Eye Brush.

STEP 9: Apply a thin layer of Argan Defining Mascara on both your top and bottom lashes.

STEP 10: Next, take your Silk Magnetic Eyeliner and create a wing from the outer corner of your eye up towards your brow and then drag it along your lash line. Before the liner is completely dry, add a pair of Silk Magnetic Eyelashes in Koko.

STEP 11: For the lips, add some moisture with our Argan Lip Balm and top them off with the Argan Matte Liquid Lipstick in Monroe.
