ARGAN GEL CLEANSING FACIAL WASH

TIPS & TRICKS - ACNE PRONE SKIN

1

WASH YOUR SKIN TWICE A DAY

Washing once in the morning and once at night is a good routine for those with acne-prone skin. Washing in the morning refreshes your face and cleanses away bacteria that may have grown in the night, while washing at night is important for removing sweat, dirt and makeup from your skin. Washing your face more than twice a day could dry out and irritate your skin.

Many people with acne think that washing more often will result in better skin, but that's not the case. Facial skin is fragile and washing too much can cause it to tear and weaken.

If you feel your skin needs to be refreshed between washes, it's better to splash it with plain lukewarm water instead of using soap or chemicals.

2

DO NOT SCRUB YOUR FACE

Avoid scrubbing the face with harsh exfoliators in an effort to unclog pores. This will create tiny tears in the skin that can become inflamed and create worse acne problems.

Instead, use Silks Argan Gel Cleansing Facial Wash to gently cleanse away surface bacteria, makeup and everyday dirt build up on the skin.

3

PAT YOUR FACE DRY GENTLY

With acne, it's important not to abrade your skin by using a rough towel to dry it off. Purchase a soft facial towel and use it to pat your skin dry after washing. Be sure to wash your towels frequently so you aren't applying bacteria to your face when you dry it off.

Silk Oil of Morocco Argan Gel cleansing facial wash uses 14 essential oils including orange, Lavandin, Lavender, Pine, Bergamot, Lime, Lemon, Coriander, Cedar, Patchouli, Lemongrass, Litsear, Geranium and Eucalyptus to encompass the refreshing aroma of the Australian hinterland.
