

PRODUCT SPOTLIGHT: ELDERBERRY SYRUP

It tastes great AND it works! For support of the immune system and specifically in the case of cold and flus there is one herb that modern research and traditional herbal medicine agree is of great value, ***Sambucus Nigra* or Canadian Elder**. This herb has been studied in great detail and is well established as a **natural immune boosting agent**, which has in some studies **reduced frequency of cough and cold as well as symptom severity in the case of upper respiratory infections**. In addition, **Zinc and Vitamin C** are well established as key players in the **maintenance of a healthy immune response**. These high potency ingredients come together in **our delicious all-natural syrup with natural glucose** for a **sweet, all-natural energy boost** for our cells which run on glucose and need it to fight off infection!

EASY TO CHOOSE

Need a boost to get going when you're feeling down and drowsy from the flu? This is the supplement for you. With **all-natural elderberry extract, vitamin C, and zinc at therapeutic doses**, in addition to glucose for a **high-power energy boost**, our product is as clean and multifaceted as cough syrups get!

EASY TO USE

Easy absorption and fast-acting effects have always been the hallmark of BENEMAX Health and Wellness supplements, and our Elderberry Syrup is no exception. Designed for all ages and dietary preferences, this **DELICIOUS syrup is meant to be an incredible-tasting, easy to swallow**
