

SCENT METHOD

Safety Data Sheet

24 June, 2022

1. Identification of the Substance/Preparation and the Company/Undertaking

1.1 Product identifier:

Product name: Soy Wax Blend (Firm)

REACH registered name: Not determined

REACH registered No:Not Determined

CAS Number: Not determined

1.2 Relevant identified uses of the substance or mixture and uses advised against Identified use(s): Sectors of Use:-

Specially formulated for the manufacture of Container Candles

1.3 Details of the supplier of the safety data sheet:

Scent Method
237 Kurrajong road

Prestons NSW 2170

Telephone: +61 (02) 4811 1592

Email address: hello@scentmethod.com

2. Hazards Identification

2.1 Classification of the Substance or Mixture:

This product is classified in accordance to NOHSC Criteria, and ADG Code. And is classified non- hazardous.

Statement of hazardous/dangerous nature

NON-HAZARDOUS SUBSTANCE., NON-DANGEROUS GOODS.

SCENT METHOD

3. Composition

3.1 Substances: Not Applicable

3.2 Mixtures: A blend of Wax and hydrogenated vegetable fats.

There are no ingredients present which, within current knowledge of the supplier, are classified and contribute to the classification of the substance

4. First aid measures

4.1 Description of First Aid Measures

General Information: Remove contaminated / saturated clothing immediately. In case of accident or illness seek medical advice immediately.

Inhalation: Remove the affected person to fresh air, keep warm and rest. If recovery is not rapid, obtain medical attention

Skin Contact: Wash the affected parts of the body with soap and water. No emergency measures are necessary but if adverse skin effects follow, refer for medical attention.

Eye Contact: Flush eyes immediately with fresh water for at least 5 minutes while holding the eyelids open. No emergency measures are necessary but if adverse eye effects follow, refer for medical attention.

Ingestion: Do not induce vomiting. No emergency measures are needed but if adverse health effects follow or large amounts are swallowed, refer for medical attention.

Self-Protection of First Aider: First aider, pay attention to self-protection.

4.2 Most important symptoms and effects, both acute and delayed Inhalation: Over-heated oil can produce fumes which may be irritant when breathed in.

Skin Contact: May cause slight irritation to skin.

Ingestion: No specific data

Eye Contact: No Specific data

4.3 Indication of any immediate medical attention and special treatment needed

SCENT METHOD

In contact with or splashed by hot liquid:

Skin Contact Cool the skin immediately with cool water. Treat burns according to their severity. Obtain medical attention. Never try to remove the material with solvents.

Contact with eyes Cool the area immediately with cold water. Seek advice of an ophthalmologist.

Specific Treatment: First Aider, decontamination, treatment of symptoms. **Notes to doctor:** Treat symptomatically.

5. Firefighting measures

5.1 Extinguishing media: Foam, dry chemical, carbon dioxide, water mist.

5.2 Special hazards arising from the substance or mixture: Slight flammability hazard when exposed to heat or flame. During a fire, toxic gases (carbon monoxide, nitrous gases) may be generated by thermal decomposition or combustion.

5.3 Advice for firefighters: Only suitably trained personnel should attempt to tackle fires. Do not stay in the danger zone without respiratory protective equipment and PPE.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures: Surfaces may become slippery after spillage.

6.2 Environmental precautions: Water may be used to flush spills away from sources of ignition. Do not allow the product to enter public drainage system or open water courses.

6.3 Methods and material for containment and cleaning up: Use Sand or active clay to absorb spilled substance and remove to containers for disposal

6.4 Reference to other Sections: See sections 8 and 13

7. Handling and storage

7.1 Precautions for safe handling: Avoid skin contact. Avoid inhalation of vapour, mist or fumes. Do not wear contaminated clothing. Avoid contact with the eyes – wear chemical protective goggles when handling the product. Protective clothing such as

SCENT METHOD

impervious gloves should be worn if skin contact is anticipated. Protective clothing should be regularly inspected and maintained, discard oil saturated leather articles. The use of barrier and after work creams may be beneficial. Wash hands after working with the material.

7.2 Conditions for safe storage, including any incompatibilities: Keep containers tightly closed. Avoid heat and sources of ignition. Store in original containers or in other mild steel or high density polyethylene containers which are closable and clearly labelled. Clean up any spilled material immediately

7.3 Specific end use(s): This material is formulated for various uses.

8. Exposure Controls/Personal Protection

8.1 Control Parameters: In all circumstances exposure should be kept as low as reasonably possible by good ventilation and safe working practices.

DNEL Values: - No Data Available

PNEC Values: - No Data Available

8.2 Exposure Controls:

Appropriate engineering measures: Facilities storing or utilising this material should be equipped with an eyewash facility.

Respiratory protection: Inhalation of the vapour, fumes or mists should be avoided by safe working practices and good ventilation.

Eye protection: Wear appropriate eye goggles.

Skin protection: No special precautions are needed beyond clean working conditions and

safe handling practices. Change heavily contaminated clothing.

Hand protection: Use impervious gloves [conforming to EN374] PVC is suitable for casual contact. If direct contact for more than 2 hours then Neoprene or nitrile gloves recommended.

8.3 Environmental Exposure Controls: See sections 6, 7, 12

9. Physical and Chemical Properties

9.1 Information on basic chemical and physical properties:

SCENT METHOD

Appearance: Pale Cream Typical waxy Neutral

Odour: faint

pH: Not determined

Congealing Point: below 60 degrees

Melting Point: greater than 55 degrees

Boiling point/ range: Not determined

Flash Point: Greater than 150 degrees

Evaporation Point: Not determined

Flammability (solid, gas): Not determined

Explosion Limits: Not determined

Vapour pressure: Not determined

Vapour density: Not determined

Relative density (at 15°C): Not determined

Solubility in water: Not determined

Solubility in other solvents: Not determined

Partition coefficient n-octanol/water: Not determined

Auto-ignition temperature: Not determined

Decomposition temperature: Not determined

Viscosity (Kinematic, at 100°C): Not determined

Explosive properties: Non Explosive

Oxidizing properties: Not expected to be oxidising

10. Stability and Reactivity

10.1 Reactivity: This product is not reactive under normal storage and handling conditions

SCENT METHOD

10.2 Chemical stability: Under normal storage and handling conditions, this product is stable. May react with strong oxidising agents, especially at high temperatures.

10.3 Possibility of hazardous reactions: No specific hazardous reactions are expected.

10.4 Conditions to avoid: Extremes of temperature.

10.5 Incompatible materials: May react with strong oxidants (e.g. chlorates, peroxides).

10.6 Hazardous decomposition products: Thermal decomposition or incomplete combustion may produce carbon monoxide, nitrous gases and irritating fumes.

11. Toxicological Information

11.1 Information on toxicological effects:

Acute Toxicity No known significant effects or critical hazards

Acute Toxicity (oral) Acute Toxicity (dermal) Acute Toxicity (inhalation) No known significant effects or critical hazards **Skin Corrosive / Irritation:** No known significant effects or critical hazards

Serious Eye Damage Irritation: No known significant effects or critical hazards

Respiratory Sensitisation: No known significant effects or critical hazards

Skin Sensitisation: No known significant effects or critical hazards

Repeated Dose Toxicity: No known significant effects or critical hazards

Mutagenicity: No known significant effects or critical hazards

Carcinogenicity: No known significant effects or critical hazards

Reproductive Toxicity: No known significant effects or critical hazards

12. Ecological Information

12.1 Toxicity: No data Available

Environmental Fate: No data available

SCENT METHOD

Aquatic toxicity (fish): No data available

Aquatic toxicity (algae): No data available

Aquatic toxicity (invertebrate): **Mobility:** No data available

Biodegradation: No data available

Bioaccumulation potential: No data available

Other Ecological information: Do not allow uncontrolled leakage of product into the environment.

13. Disposal Considerations

13.1 Waste treatment methods: Transport to authorised waste location, or incinerate under controlled conditions (EU Directives 2000/76/EC and 1999/31EC apply). European Waste Catalogue No. 050199/130899.

14. Transport Information

14.1 UN number: Not Classified.

14.2 UN Proper shipping name: Not Classified

14.3 Transport Hazard Class(es): Not Classified

14.4 Packing Group: Not Classified

14.5 Environmental Hazards: Not classified

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC code: Not Classified

15. Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

EU Regulations

Regulation [EC] 1272/2008 Regulation [EC] 1907/2006

SCENT METHOD

15.2 Chemical Safety Assessment: The supplier has not performed a chemical safety assessment of this substance.

16. Other Information

Indication of changes: N/A – First Issue

Abbreviations & Acronyms

PNEC DNEL LD50
