- 1) Tailoring - Stitching , Sewing & hand embroidery
- 2) Beauty and Wellness
- 3) Computer training to enable Office Management jobs - Customer Service Executives, Back office support
- 4) Elderly aid & Child support provider - Home Health care provider for Child and Elderly Care
- 5) Skill Development to Rural and Tribal women - Hone Existing Skills of Rural & Tribal women

Skill Development for Covid Impacted Women

Need Analysis

Countless women lost spouses and their sole earning members to Covid pandemic. Their trauma is not just physical or emotional, they are facing financial uncertainties.

Outcome

Help many covid impacted women from starvation, making sure their health and well-being are not compromised. Through various programs, women will be able to get jobs/self employed and support their children and other dependents.

Conduct life-skills workshops on multiple aspects along the lines of social, personality and career orientation and build confidence in women from economically weaker & vulnerable families.

Empower women by helping them find livelihood, educate their children and improve their sense of well being.

Placement Support : Placements arranged regularly and efforts will be made to build a network of relevant and potential employers for placing women. Women will be supported through various workshops to prepare themselves for interviews through mock interviews, workplace readiness etc.

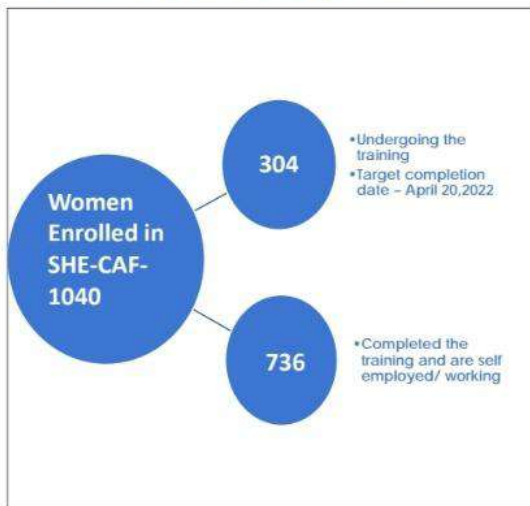

Follow up sessions with women beneficiaries for upto 3 months post program completion

Long Term Impact : Number of women, who are living poverty line due to Covid crisis, will be reduced. Through livelihood & skill development programs, Covid impacted vulnerable women will get better quality of life and livelihood.

Area of work: Murgod,Belgaum,india

We are working with Government higher primary school murgod in bailahongala,belgaum district.

This school was built during the british ruling period and was used as jail to lock up our freedom fighters,later it was converted into a govt school by the karnataka state government.The toilet blocks built were not in a good condition and sewa is repairing these unit by recreating the sanitary pipelines and the septic tank. We also realised that the blocks were damaged by the localities.To avoid this sewa is constructing new gates and grills,where outsiders cannot use it during the non-school hours.

Figure : Toilets Renovation in progress at murgod,belgaum,india.

Our sewa team has identified few schools around Ghatampur region in kanpur,Uttarpradesh.

These schools are in very remote place and the nearby villages gets flooded everytime when they open the Dam gates,since it is on the banks of yamuna river.

Government around these areas serve the villagers as their shelter homes until the flood is receded.

Jayanth bhatt from SHE team visited these schools for a survey and construction/repairs of toilets will be starting soon.

Figure:Kanpur govt schools

As a part of sewa's menstrual hygiene program,we have conducted camps in as per the table below. These camps were supported by north jersey chapter.

Figure: Menstrual camp at delhi school beneficiaries.

Neha ji from Boston chapter visited and conducted one menstrual hygiene camp for about 300 adolescent girls in Senior secondary school,mohammedpur, Delhi.Shalini ji from SHE team and sewa bharath team was also present during this event.Free re-usable cloth sanitary napkins were also distributed to every individuals. The school management were very happy and thanked sewa for conducting this camp in their school.

Riya dadheech visit to Rise school,Pune

Riya dadheech, A young SHE donor from new jersey,who sells her paintings to collect funds towards the construction of toilets for indian girls.

She runs an organisation named "Purple paint" and works closely with sewa international on a mission to build 500 toilets for girl children in remote,vulnerable,and under privileged villages in India.

She has donated funds for the construction of 10 toilets in Rise pise madhyamik school,Pune,Maharashtra.

Let us join hands to help her attain this noble goal.

[Click here for video](#)

Riya dadheech along with her little sister sonia,her father Sri.Anil dadhceech and her mother Smt.Sushmitha ji visited the school and interacted wth school management and kids. School management and kids from different classes present small gifts for riya and her family.

Thank you and warm regards,
Team Sewa International - Sanitation,hygiene and empowerment of the girl child.
