REDEFINING AND ELEVATING THE SHE PROGRAM

Building upon the success and momentum of the toilet and hygiene program started in 2015, we have developed new programs in the past 2 years to promote the development and empowerment of the Girl Child. These efforts include: providing sanitation facilities for students in schools, promoting menstrual awareness and education, distributing cloth sanitary napkins, providing skill development opportunities for covid impacted women and girls, hosting self defense workshops, and providing health check-ups for women and girls.

To contextualize these efforts, we have revamped our project micro site at www.she.sewausea.org, where we will share updated information on our projects, outcomes and deliverables, as well as our monthly newsletters, annual reports, and project videos and images. We encourage you to visit the site, post and share about our work, and support our efforts by giving directly on our secure payment site: www.she.sewausea.org/donate.

Thank you for your continued support.
