**ESTEEMED DONOR - SEWA NORTH JERSEY LEAD
BATCH OF 2021**

SEWA'S SANITATION PROGRAM

Can you imagine not having
a Toilet?

About **49% of**
School Children across
India do not have
access to school toilet facility

Our Journey

In 2015, Sewa International started the “#Yes! I can go to school” program, and implemented the first pilot project by installing toilets at four government schools in Jigani, Bengaluru District, in South India. Girl's school attendance increased by 87%.

Since then, Sewa International has expanded the project to different locations across India. In the past five years, this project has benefited more than 9,927 families and 43,989+ school children from various sections of Indian communities.

Our Reach

698 Toilets Benefitting
43,989+ School children
9,927+ Families

14 Indian States
27+ Districts

35,000+ adolescent girls

Key Focus Areas

Our Key Focus Area:

1. Building new toilets/repairing existing toilets in schools with a higher percentage of girl students.
2. Construction of menstrual rooms for adolescent girls and female school staff.
3. Providing water for sanitation.

There are several 'rights' given to citizens of India but the right to a safe, secure, and healthy life at home and in schools is not one of them. Thus, we believe a “Right to Sanitation Facilities”, especially for our women and girl children who face several challenges everyday just to attend nature calls in a safe and secure environment, is much needed.

SHE team is committed to providing such toilet facilities in communities, neighbourhoods, and schools, where they are not available so that we can ensure both dignity and safety to women and girl children.

Donate a toilet now!

NEED ANALYSIS – UTTAR PRADESH

Key requirements:

- 30 new toilets in rural schools across UP
- Soak pit; Overhead tank
- Water provision for sanitation; Wash basin installation
- Menstrual awareness for adolescent girls

State: Uttar Pradesh

Districts: Fatehpur, Ayodhya, Kanpur

Number of schools identified: 5

Government Schools

Total beneficiary Strength : 1026 students, 35 staff

Requirements in each school post survey and analysis:

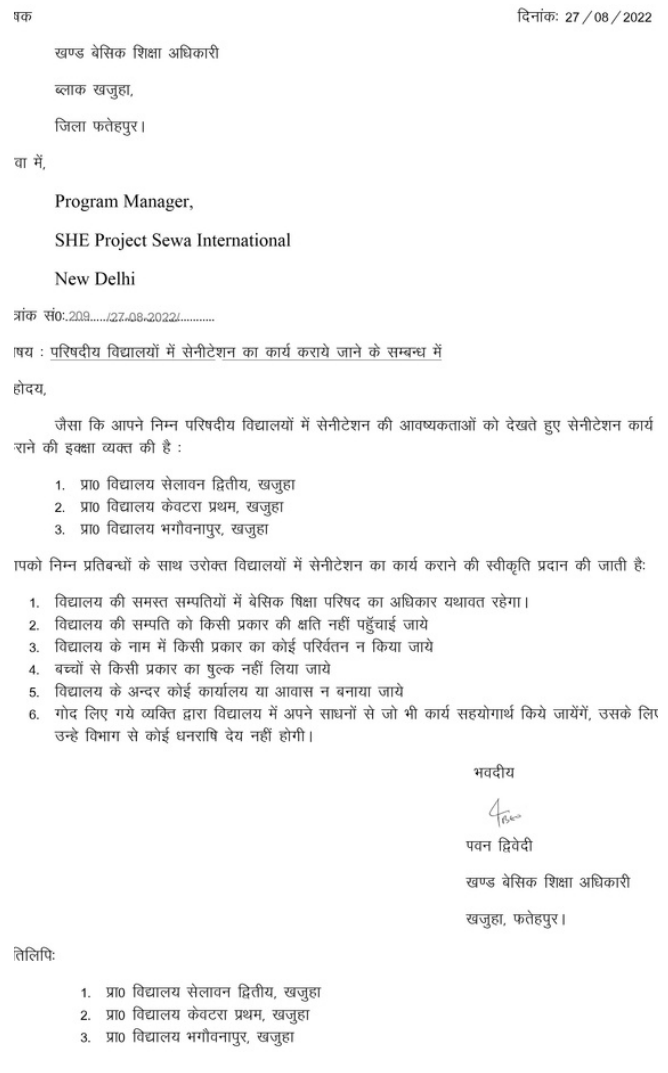

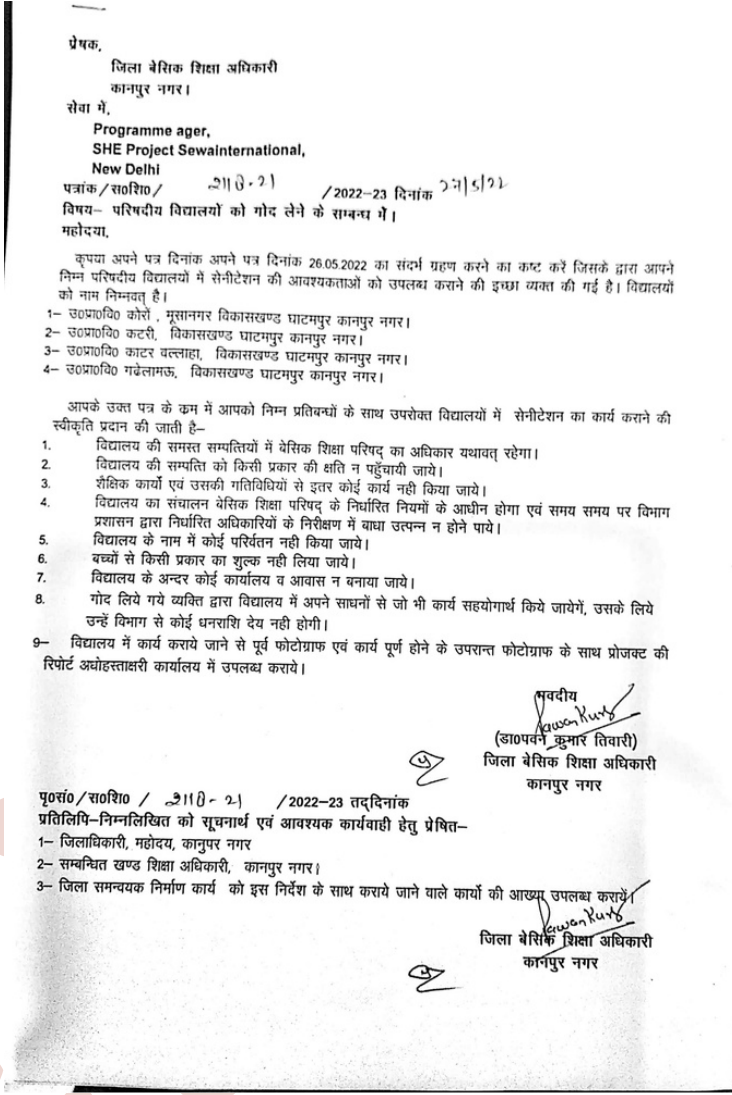

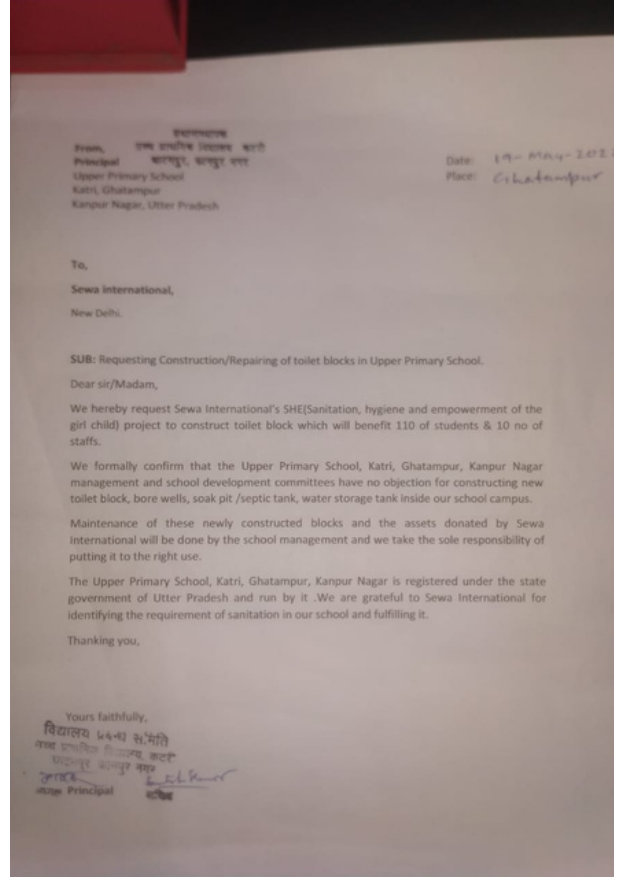

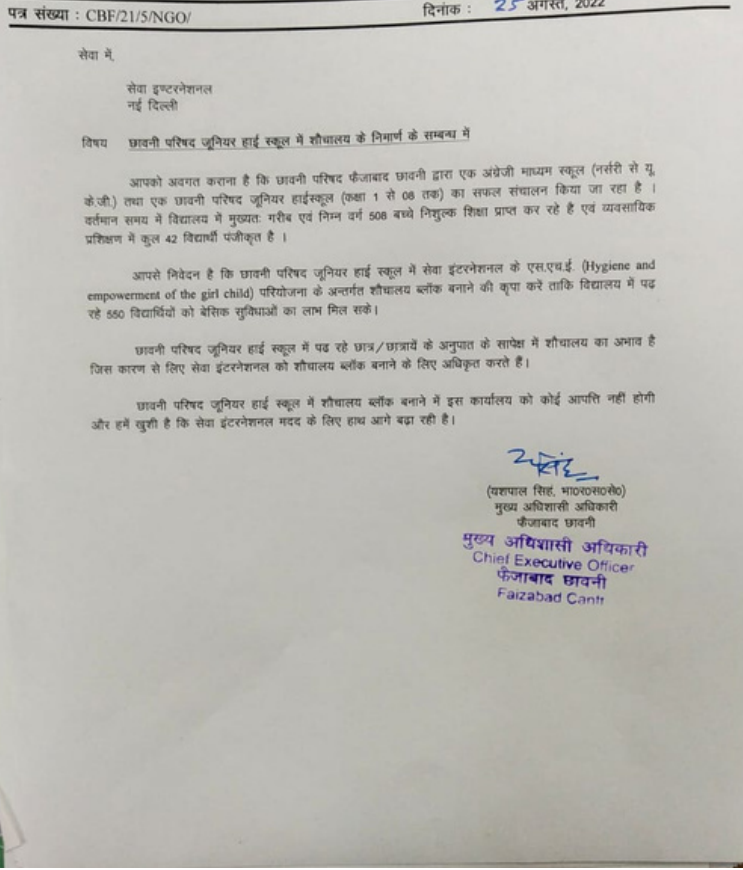

- 6 new toilets/urinals for students and teachers.
- Construction of new soak pit for sanitation.
- Overhead tank to provide water for sanitation; Water connection inside the toilet units.
- Wash basin outside the toilet block.
- Menstrual health and hygiene sessions with distribution of reusable sanitary napkin kits to adolescent girls.

The identified schools are in very remote rural areas with limited facilities for water and sanitation; Children walk through 2-3 villages everyday to commute to school. Lack of proper sanitation facilities causing a lot of health issues for students.

Sewa received request letters from each school and upon approval from the Education department, Govt of UP is working on improving sanitation facilities in these schools.

With generous funds from North Jersey LEAD, Sewa is providing sanitation facilities, menstrual health and hygiene awareness in the above identified schools.
