## Bi-Angular® Multi-Station Gym

This commercial workhorse features dual weight stacks, Bi-Angular® Converging Press Arms technology, a stand alone leg developer, and the Perfect Pec™ Station. Two 210lb. Selectorized Weight Stacks allow multiple fitness users to exercise simultaneously. Bi-Angular® Converging Press Arms guides you through the optimal range of motion while applying resistance from two directions. This smooth, multi-directional resistance increases muscle interaction by 25%. The leg developer's SmoothGlide Bearing System™ features an independent weight stack so more than one user can workout at a time. The Perfect Pec™ Station is equipped with swivel arms and designed for both unilateral and bilateral movements so you can get the maximum stretch for deep muscle toning, and the most incredible upper body development possible.

Includes: Lat bar, Straight bar, Ankle Strap, Ab/Triceps Strap, Body-Solid Total Body Workout™ DVD, Full-size exercise chart

Weight: 941 lbs

Dimensions: 72"L x 119"W x 83.5" H
