PLATE LOADED CHEST PRESS

GR801

The BodyKore Plate Loaded Chest Press is designed to develop chest muscles. By squeezing the weight, it forces you to maintain muscle engagement throughout the exercise. This machine provides superior durability and comfort, and ergonomically designed handgrips. The plate loaded chest is designed to provide an intense workout while eliminating strain, it is hard to beat. Easy and convenient step-in design makes getting started a breeze.

The BodyKore Plate Loaded Chest Press targets muscles in the chest and upper arms with a comfortable and customizable chest press workout. Quickly add weights to the nickel-plated weight tubes and the precision pivot bearings will ensure each rep is smooth and natural. Padded, ergonomic chair back design and an adjustable padded seat provide a comfortable workout. The adjustable padded seat can be quickly adjusted to the height of your choice for ultimate comfort and convenience. The BodyKore Plate Loaded Chest Press is ideal for both commercial and in-home use.
