## Sensory Wall Cascade

The Sensory Wall Cascade offers a unique sensory experience which will captivate the mind and provide a soothing effect for many children and adults.

Unlike similar products, the UFO Sensory Wall Cascade has an inbuilt remote control LED illuminator with full color change. This avoids the need for bulky and hot external units. We have also incorporated a unique cantilever mounting bracket, allowing for secure fixing and much more freedom in the positioning of the Cascade. Our Cascade system can easily be installed on walls, or above doors, and swung out ready for use. No other system offers so much flexibility.

The PMMA fiber used in this product has CPSIA and EN71 toy certifications. This means you can be sure you are buying a safe, rigorously tested product.

### CASCADE SPECIFICATIONS

Fiber Type	2.2mm diameter PMMA side sparkle
No. of Fiber Tails	SWC10: 90, all at 2 meter (6.56ft) length SWC12: 108, all at 2 meter (6.56ft) length
Operating Environment	Indoor / dry
