RING SIZING GUIDE

Can't find the perfect size? We're here to help.

To find your ring size start by printing this page in US Letter size to 100%. Please check the accuracy of your print by placing a credit card on the line below. If the card lines up, you're ready to determine your ring size.

Use this method if you have a ring that perfectly fits the finger on which you would like to wear your new ring. Find the circle that is the best fit for the inside of your ring: the inside of the band should align with the outer edge of the circle.

If your ring is between two sizes, we recommend you opt for the larger size.

If you do not have a ring that fits the finger you are shopping for please use this ruler to determine the appropriate size. After cutting out the ruler below, carefully cut the highlighted line to create a slit. Wrap the ruler around the base of your finger and pull the narrow end through the slit. We recommend also measuring around your knuckle.
