How to Publish Quick Guides on InstantX

A Quick Guide is a short instructional outline demonstrating how to execute a specific digital marketing task. Quick Guides are:

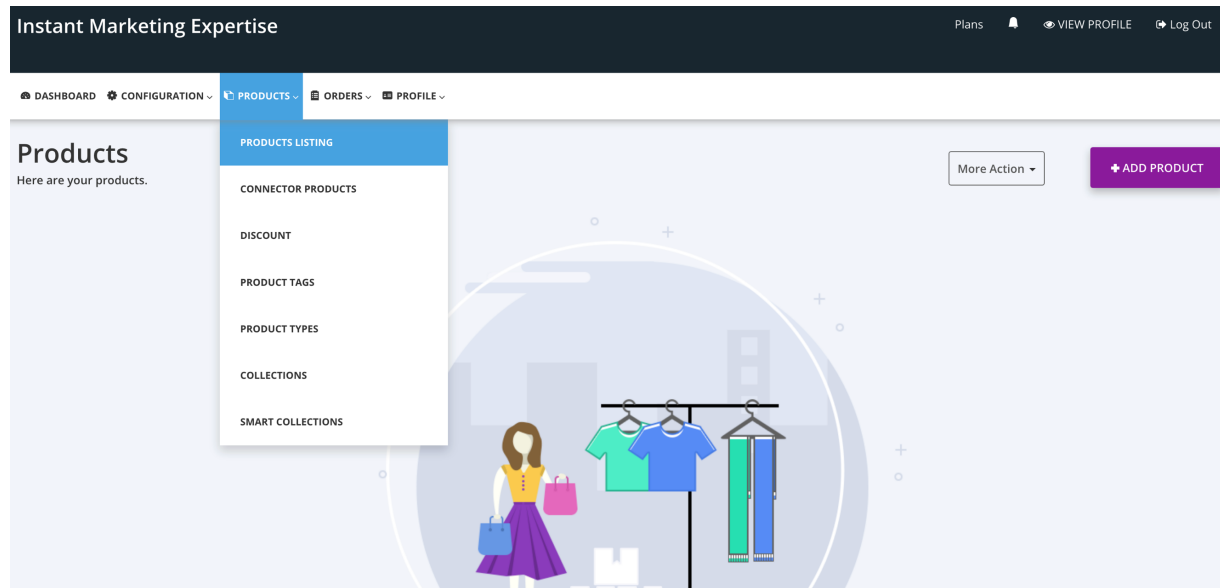

- **Short and concise:** the average Quick Guide is one to two pages in length or a short video
- **Simplify tasks:** breakdown tasks into easy steps or templates
- **Created by professionals:** developed by in-field, digital marketing professionals

There is a vast range of suitable topics for Quick Guides. Topics can be related to search engine optimization and search engine marketing, social media marketing, public relations and communications, email marketing, graphic design, video, web development, how to use a specific marketing or technical platform, and the list goes on. A suitable Quick Guide topic will provide the answer and steps to a question that's not easily found online. View [Quick Guides](#) for examples.

Step 1: Upload your Quick Guide to the seller platform.

To sell your Quick Guide on InstantX, go to “Products > Product Listing” in the main navigation of the seller platform.

Then click the purple “Add Product” button in the top left corner.

The following is required to add product:

- All products must be digital (.pdf, video, image, file link or Microsoft files are accepted)
- Product details: name, description, price (all pricing must be in US dollars)
 - *****Ensure buyers understand what they’re buying. Make your description as possible. We highly recommend including the following seven section in your product description:**
 1. **Page count:** mention how many pages does the Quick Guide includes
 2. **Format:** mention the Quick Guide format (eg., pdf)
 3. **What you’ll learn:** list action items that will result from downloading the Quick Guide (eg., tracking website video views)
 4. **Content outline:** list sections or main topics covered in the Quick Guide
 5. **Buyer requirements:** list buyer criteria. It could be as simple as “no knowledge required”
 6. **Who the Quick Guide is designed for:** list who would benefit from downloading the Quick Guide (eg., business owners, digital marketing students)
 7. **Quick Guide goals:** mention the goals someone may have when downloading the Quick Guide (eg., grow your business online, get hired as a digital marketing expert, work as a digital marketing freelancer)

- Upload an image for your Quick Guide—we recommend making the image the title page of your guide. A simple screen shot will suffice.
- Choose the product Collection(s) you would like your Quick Guide to be displayed under on InstantX
- Optimize your products SEO for increased sales—fill out the meta tag and description field

Click the purple “Save” button at the bottom of the page.

Step 2: Verify your Quick Guide was added correctly.

Go to “Products” > “Product Listing”. Your product should appear and you will be able to view it on InstantX.

You will be able to view summaries of your activity and sales in the Dashboard view.
