Natty 4 Life. Pretty interesting documentary in talking about natural vs enhanced bodybuilding. But one thing that truly doesn't matter which side of the fence you're on is the actual sport.. the love for walking into a gym and destroying every fuckin weight in site and leaving everything you have in the gym for that hour or two for the purpose of better who you are as a person. Who really gives a flying fuck if you're natural or not.. everything these days is so "fake" anyway from ppl's appearances and characters.. to news to social media. Do what you wanna do.. the gains and possible side effects is on you... it's your life. If you're in this sport or even lift and exercise for the right reasons.. that's all that matters. If you're natural.. ppl or gonna say you're on it.. if you're on it.. ppl are gonna say you're cheating.. fuck all of em.. they ain't you and they don't know the soul crushing work you put in day in and day out to enrich your life!! Just my thoughts on it!
