Testosterone Cypionate for Sale Online in USA - Monster ...

Testosterone cypionate is a slow-acting form of testosterone. Its duration of activity in the body is 2 to 3 weeks, and a 250 mg injection a week is usually sufficient to maintain a high testosterone level. Buy testosterone online However, it must be borne in mind that in practice the average dose is 500 mg a week. The addition of the cypionate chemical delivery agent means Testosterone Cypionate has an active life of around 15 to 16 days, as opposed to only a few hours or days with shorter delivery agents. This is, in part, due to the more stable and complex, 8-carbon long, delivery agent, which allows it to be stored in fat cells and slowly release once.
