

Aoife McNamara Ltd.

Local Purchasing Commitment Policy

31st of October 2022

Local Purchasing Commitment Policy

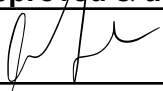

Aoife Mc Namara LTD is committed to supporting the local economy by purchasing goods and services from local and independent suppliers. Our goal is to source at least 50% of our costs from suppliers located within 50 miles or 80 km of our operations. We believe that this commitment will not only support local businesses and create jobs, but also reduce our environmental impact by minimising transportation-related emissions.

To ensure that we meet this commitment, we will take the following actions:

1. **Prioritise local and independent suppliers:** When seeking goods and services, we will prioritise local and independent suppliers. We will actively seek out these suppliers and give preference to them over non-local suppliers, provided they can meet our quality and cost requirements.
2. **Encourage local sourcing among our employees:** We will encourage our employees to purchase goods and services from local and independent suppliers in their personal lives, as well as provide information on local suppliers to help them make informed purchasing decisions.
3. **Track our progress:** We will track our purchasing from local and independent suppliers and report on this progress annually.

We believe that this Local Purchasing Commitment Policy will help us build stronger relationships with our community, support local businesses, and promote sustainable practices. We are committed to continually reviewing and improving this policy to ensure that we meet our goals and contribute to a more resilient and prosperous local economy.
