100iu Dragon Pharma is a peptide hormone that stimulates growth, production of IGF-1, increase of muscle mass, increases the strength of the bones, stimulates... Lipotropin is an augmented fragment of growth hormone. However, it does not carry the same side effects or risks as taking growth hormone. Due to its structure AOD or Lipotropin not only calls for the breakdown of fatty acids and adipose, but it up regulates your metabolism by modulating the beta receptors.
