

# “Tangibly better.”

B-Cool MC 660

Employees from  
Aegerter Swiss Technology  
and Blaser Swisslube

**Our Liquid Tool. Your Success.**

# For the demanding mixed materials production.

## B-Cool MC 660

### Universal

- For all alloys based on steel, aluminum, titanium, nickel and cobalt
- Suitable for both hard and soft water
- For individually filled machines and central systems

### Strong

- Enables high cutting performance and long tool life
- Ideal for challenging applications and the most demanding material combinations

### Clean

- Excellent rinsing behavior
- No residue formation
- Low foaming also in high-pressure systems

### Stable

- Optimized protection from bacteria and fungi
- High hard-water stability

## Convinces even our most critical customers

Our entire B-Cool expertise – combined in one single product

“Impossible isn’t a word in our vocabulary.” Test customer Andreas Zumbach, CEO, Aegerter Swiss Technology

### Profit from our unique Liquid Tool

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.

**Test us. It’s worth it.**
