

“Finally clean machining of cast iron.”

B-Cool MC 640 CI

Dieter Brühlmann
Marco Diesing
Production Team
Hidrostal, Switzerland

Clean machines. Spotless surfaces. Stable processes.

B-Cool MC 640 CI

The ideal metalworking fluid for
machining cast iron and steel

- Clean workpieces and machines thanks to excellent rinsing behavior and filterability
- Spotless surfaces and excellent corrosion control
- Exceptional stability with long sump life
- Low foaming also in high-pressure systems
- Odorless and gentle to people and the environment*

*Free of critical substances such as boron and formaldehyde

Clean machines after 12 months of milling cast iron with B-Cool MC 640 CI at Hidrostral, Switzerland

Profit from our unique Liquid Tool

Productivity, economic efficiency and machining quality are factors that critically depend on the choice and the quality of your metalworking fluid.

With our profound know-how and experience, customized services and excellent products, we help you fully capitalize on the potential of your machines and tools and turn your metalworking fluid into a key success factor – a Liquid Tool.

Test us. It's worth it.
