Lotion Ratio Guide(The lotion is a mixture of shower gel+water)

Pet shower gel (for shower gel that do not require dilution): **water=1:10**
* If the shower gel is concentrated, please dilute it in advance.
Recommended dosage of shower gel for large and medium dogs: **20ml-30ml**
Recommended dosage of shower gel for small dogs and cats: **10ml-20ml**
The maximum capacity of pet shower gel does not exceed 30ml

The recommended total amount of lotion for medium and large dogs is **200-300ml**
the total amount of lotion for small dogs and cats is **120-200ml**

Precautions

- Do not repair, disassemble or modify the product by yourself.
- Do not immerse the split main body part of the machine in water for use.
- Do not knock or drop the product, otherwise the product may be damaged.
- When the product is charged or used in charging status, please do not let pets bite the charging cable to avoid leakage of electricity.
- If children operate the product, please make sure to do it under the guidance of adults.
- The maximum amount of shower gel should not exceed 30ml, otherwise it will seriously affect the bubbling efficiency.
- In order to achieve the best use effect, please clean and dry the bath brush head after use in time to avoid blockage of the bubble outlet.
- Do not use chargers with more than rated voltage.
