Cleaning and Maintenance

Pre Filter Replacement Guide

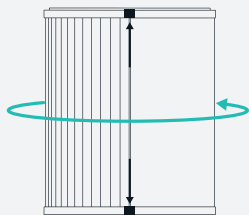

a. Only replace pre filter

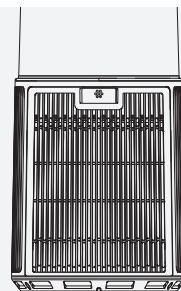

1、Remove the rear cover behind the purifier, grab the pull cords above and below the filter, and pull out the filter.

2、Tear off the old Pre Filter along the magic tape and clean the hair, dust in the purifier.

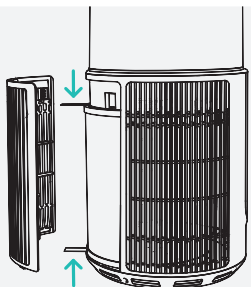

3、Align the new Pre Filter with the magic tape on the upper and lower outer frame of the filter, wrap it around and ensure the magic tape is fixed tightly.

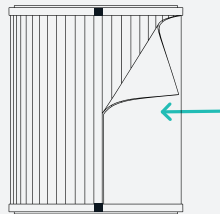

4、Place the filter back into the purifier and close the rear cover.

H13 HEPA Filter Replacement Guide

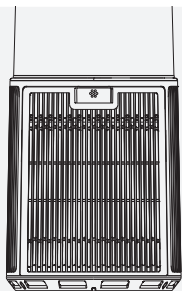

b. Replace pre filter and H13 HEPA filter

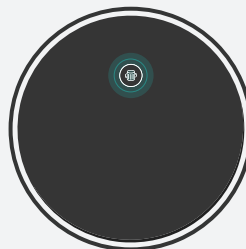

1、Remove the rear cover behind the purifier, grab the pull cords above and below the filter, and pull out the filter.

2、Place a new pre-filter around the new H13 HEPA filter.

3、Place the filter back into the purifier and close the rear cover.

4、Press and hold the filter reset button on the panel for 3 seconds to reset the countdown for the filter.

Safety Information

■ Installation

- If the cover located on the back is not installed correctly, the air purifier cannot start.
- The air inlet should be more than 20cm away from the wall and other shielding objects.

■ Cleaning

- Regularly clean the dust at the air inlet hole is conducive to prevent the decrease of air inlet volume.
- Please use a damp cloth to gently wipe the surface of the machine, avoid water entering the machine.

■ Power Supply

Please follow the following instructions to use power cords and sockets to avoid fire, electric shock, or damage:

- Do not excessively pull, twist, or bend the power cable. Otherwise, the core of the cable may be exposed or broken.
- It must be connected to a power socket that fits the power cord plug.
- Please don't use power adapter of other brands.
- Be sure to disconnect the power supply before performing maintenance operations or moving the air purifier.
- If the supply cord is damaged, it must be replaced with one purchased from its manufacturer or service department.

■ Usage

If the product has abnormal sound, peculiar smell, high temperature, or irregular fan rotation, stop using it immediately.

- Do not put fingers or foreign objects in the air inlet and outlet.
- Do not put hair, fabric, etc. close to the item, so as not to be involved in or block the air inlet and outlet.
- Do not sit, lean or tilt the purifier. and do not place heavy objects on it.
- Do not pour liquid or throw powder and fine matter into the machine from the air outlet.

■ Usage Limits

Do not use it under the following conditions, otherwise electric shock, fire and other damage may occur:

- The air inlet hole must be far away from the open flame appliance.
- The air purifier must be far away from high temperature and humidity places.
- This air purifier can be used by children aged from 8 years and above.
