Notes

- Filter element is a consumable product, it is recommended to replace it once a month, once you need it, welcome to visit our official website:https://www.uahpet.com
- Please use clean cloth to wipe the external pump body. Please cut off power and turn off the fountain before cleaning the water bucket.
- Before using or after replacing the filter, please rinse and wash the filter.
- Please clean water bucket, drinking tray, filter and filter head regularly for best results.
- When the fountain is charging or plug in to a power source, please keep your pet away from the wire to avoid your pet biting the wire, which may cause electricity leakage.
- Please keep the fountain horizontal while using it. Please do not knock it over.
- For indoor use only. Do not expose this product to sunlight.
- If children operate the product, please make sure to do it under the guidance of an adult.
