

**COBRA™
MAX**

CUSTOMIZED TO THE MAX

Max out your Cobra™ EXM2

CobraMax™, all the power and performance of the Cobra EXM2 with a combination cowling and lighting kit. The thermoformed cowling covers your Cobra EXM2, adding a sleek look and a layer of protection for much of the exposed wiring. The light module is a stunning addition that allows you to customize your monitor with your own back-lit graphics on each side. CobraMax, maximum performance, maximum customization.

The CobraMax Cowling

The CobraMax thermoformed cowling comes in a choice of matte black, gloss black, gloss red, or gloss gray.

The CobraMax Lighting Modules

The back light module displays the CobraMax logo while the side light modules display the Elkhart Brass 'Elk and Heart' logo. Custom-etched side lenses can be ordered to allow you to personalize the side light modules with your own logo, department emblem, station number, or other design. The lighting modules can be user-set to a range of colors including white, yellow, green, blue, and red.

The CobraMax Kit

Compatible with any combination of Cobra monitor that has the CobraMax-ready mounting bosses. Compatible combinations include both 7200 and 7250 designations, both SD or HD motor options, both 3/4" Nut or Handwheel Overrides, any currently available base option, and both NHT or BSPB discharge thread options.

Gloss Red

Matte or Gloss Black

Gloss Gray

The lighting module lets you choose from a range of colors including white, yellow, green, blue, and red.

The standard 'Elk & Heart' side lens can be replaced with a custom etched lens.
