

BUY FOOD WITH PLASTIC

Tackle Hunger & Upcycle

Nicaragua

Switzerland

Ghana

India

A photograph showing two women in front of a red brick wall. The woman on the left, wearing a grey t-shirt with a logo, is handing a white plate of food to the woman on the right. The woman on the right, wearing a white t-shirt and a dark cap, is handing a clear plastic bottle to the woman on the left. A white cloth bag filled with more plastic bottles sits on the ground between them. A light green brushstroke graphic is overlaid on the top half of the image, containing text.

We organize Events in Ghana, Nicaragua and India, where people can pay for food with plastic bottles. The collected plastic is then upcycled to beautiful & useful products to close the cycle and become selfsustaining.

MISSION

We provide access to food, creating a circular economy, & promoting environmental responsibility.

VISION

A world where no one has to live in extreme poverty and no plastic lands in nature.

Our Core Values

CREATE DIRECT IMPACT

Our main purpose is to create direct positive impact wherever we are. While doing that we aim to be economically sustainable and protective of the world we live in.

COURAGE TO TRY

We know that we don't know all there is to know. We are not afraid to fail and learn from our mistakes. By that we hope to inspire others to make their own positive difference in the world.

STRONGER TOGETHER

We embrace diversity and different approaches. We believe that together we can achieve great things and know that complex problems need balanced collaborations and trust.

Our Circular Economy

Buy Food with Plastic started 5 years ago...

...these are our Achievements so far:
