Installation Instruction

1. Before installation, please confirm that the camera has been added on the app.

2. Select a position with a wide viewing angle and place the camera directly.

3. Installation on the Wall (optional)

1) Tear off the positioning paper and stick it to the selected location.

2) For a wooden wall, drive a screw directly into the area covered by the paper ①, for a concrete wall, drill a hole on the area and insert a bolt before tightening the screw into the wall.

3) Align the guide rail at the bottom of the camera with the screw and push it downward to hook it onto the wall.

Note: Please adjust the height and depth while tightening the screws to ensure that the camera is installed correctly.

Q&A

Q: why can't the camera connect to the Wi-Fi network?

A:Check whether the camera is configurated with the network

A:Check whether the WiFi is 2.4G Wi-Fi of the 802.11b/g/n protocol (5G Wi-Fi is not applicable)

A:Check whether the WiFi password and the password are correct. Generally, there is a beep when scanning the QR code.

A:Check whether the camera and your mobile phone are close to the router. Please ensure that the WiFi signal of the wireless router connected to the camera is within the coverage.

Q: How to check if the camera is abnormally offline?

A:

A:Check whether the power supply and network are normal;

A:Unplug the power cord and plug it again to restart the equipment;

A:reconfigure the camera;

A:Check whether the network broadband is above 4Mbps.

Q: How to lose videos?

A:The camera supports two storage modes, local storage and cloud storage.Do be paid individually.

A:Micro SD storage: save the video recorded by the camera to the micro SD card.

A:Cloud storage: Videos recorded by cameras can be stored in the cloud. The videos of recent 7 days or 30 days can be saved based on the video storage duration. You can view and download historical videos online.

Safety Instructions

Please use this product to the extent permitted by law.

The laws of certain countries, states or provinces may prohibit or restrict the installation and use of this product in your vehicle. Please comply with all applicable laws and regulations regarding the use of cameras before installing and using this device. The responsibility for violations, including violations of laws, rules and ordinances, including passenger privacy, and not to use this product in any place where installation or use of this product is prohibited.

Certification

CE The device complies with the radio interference requirements of the European Community.

Product Name: SMART PAN-TILT CAMERA

Brand Name: KAWA

Model Name: A7

Manufacturer: SHENZHEN ELECTRONICS COMPANY LIMITED

KAWA SMART PAN-TILT CAMERA is the environment with the parameter range of -10°C ~ 50°C, please ensure that the ambient range of your SMART PAN-TILT CAMERA. It can be operating under 2000m. Hereby, KAWA ELECTRONICS COMPANY LIMITED declare that the radio equipment type SMART PAN-TILT CAMERA is compliance with Directive 2014/53/EU.

Operating Frequency Range	The maximum RF Output Power
WIFI: 2412 ~ 2472 MHz	17.97dBm

turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & body.

FCC ID:2AZMZ-A4

FCC RF Exposure Warning Statement:

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by

Radio Frequency Exposure Statement for IC:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1) This device may not cause interference.

2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d' Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) L' appareil ne doit pas produire de brouillage ;

(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d' en compromettre le fonctionnement.

Radio Frequency Exposure Statement for IC:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & body.

Cet équipement est conforme aux limites d'exposition IC définies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et le personnel.

IC:27208-A6

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

This product is designed and manufactured with high quality materials and components, which can be recycled and reused.
