THE WOW SURFACE

a disruptive and sustainable source for seamless architectural coatings

MicroTop One | Industrial | MicroTerrazzo | MicroQuartz | Oxytop | MicroWall

With Marble Shield ®

microtop one

decco® MicroTop One is a one component coating that creates seamless surfaces. Formulated with cement, mineral fillers, correctors, marble particles plus synthetic resins. Ideal for light traffic floors, walls, interior areas, residences, commercial buildings, objects and more.

Designed for Durability

decco® The Wow Surface is popular with interior designers, business owners and homeowners. Our MicroToppings are excellent for property owners who wish to achieve a seamless floor finish, which is grout-free and aligns with modernist and contemporary trends.

About Marble Shield®, the ultimate technology in premier line of mineral admixtures: it is composed by marble powder, fine silicates and hybrid resins, that work as binders for the solidification, consolidation, hardening and conservation of decco MicroTop One and Industrial, permanently protecting it from damage caused by humidity, preventing the entry of water and other liquids without losing permeability.

Marble Shield® advanced technology is also used as a powerful reinforcement for the treatment of catalyzed nano crystallization of decco MicroTop One and Industrial.

SURFACE REIMAGINED

The meaning of versatility

Thanks to their thin-layered and flexible nature, our products can be applied quickly and to almost all load-bearing surfaces: concrete floors, wall & floor tiles, ceilings, countertops & vanities, stair-treads and more, in a unique natural texture.

Extreme Durability

With Marble Shield ®

industrial

decco® Industrial is a modern system for concrete surface designs that keeps all architectural possibilities open. MicroTop Industrial emulates the aesthetic of power-troweled concrete with enhanced robustness.

decco® The Wow Surface exhibits a pretty strong bonding feature. Therefore, it can be applied to many different kinds of surfaces including tiles, wood, and existing concrete floors & walls surfaces.

**Benefits of installing decco®
The Wow Surface include:**

No compaction is needed. Therefore there is no need to use heavy machinery.

Strong almost immediately after being applied.

The material does not shrink, meaning that there will be no folds or cracks.

Eco-Friendly.

Low permeability meaning that it is ideal for use in the outside, in bathrooms and kitchens.

Great bonding.

Chloride free, which means that it is a safe and durable flooring option.

20 colors available.

Durable, Beautiful, And Timeless

microterrazzo

decco® MicroTerrazzo - The pinnacle of natural landscapes.

It plays to the strengths of what terrazzo is supposed to be in its purest sense - timeless, enduring, and visually impactful. With an endless array of options to choose from, the different finishes that can be achieved are endless.

Visually Impactful

High Purity Colored Quartz

microquartz

decco® MicroQuartz is a resilient and slip resistant floor covering. It combines colored natural quartz granules with a hybrid acrylic binder, which are hand troweled at 1/8" thick over an existing substrate.

Permeable Seamless Coating

decco® MicroQuartz can be applied directly over concrete, tiles, plywood, vinyl, MDF & many more surfaces. Suitable for internal & external floors, walls and joinery.

**decco® microquartz
application environments:**

balconies, patios, cafeterias, hallways,
pool decks, driveways, industrial
kitchens, food plants, garage, hospitals,
hotels, schools

—

THE WOW SURFACE

every stage in our portfolio is designed and created with the single purpose of bringing creative solutions to our costumers for their projects.

Iron Chromatic Effect

oxytop

Two - component Iron based coating, desgined following the latest trends in architecture and interior design, giving a rusty and corroded metal finish, with bits of silver shining through bumpy coarse texture.

Rust Mteal Texture

decco® Oxytop - Exclusive Metal Steel coating, designed following the latest trends in architecture and interior design, giving a Rusty Metal Finish.

Dress Your Walls

microwall

MicroWall is a decorative microcement plaster that allows to reproduce the tactile like lived concrete and naturally aged, also tracing the details to characterize modern environments that evoke metropolitan atmosphere.

MicroWall is suitable for application to interior walls, columns and ceilings.

THE WOW SURFACE

technology & features.

Extended Open Time
with Superior Hand
and Workability.

Extreme Pot Life.

Same Day Return
to Service in most
cases.

Great Flexibility.

Stylish & Natural Look
in all our finishes.

Eco-Friendly.

Extreme bonding
on any kind of
surface, included
Tile.
(No demolition)
