

DYNAMYCO Spark

DYNAMYCO Spark is a 3-in-1 enhanced inoculant containing a unique consortium of mycorrhiza, beneficial bacteria and growth enhancers. DYNAMYCO Spark supports plant growth from germination and rooting, through the vegetative stage and into budding and flowering.

APPLICATION METHODS

DYNAMYCO Spark Wettable Powder is suitable for horticulture and nursery applications.

- Uniformly mix 1 tsp of DYNAMYCO Spark (3g) per gallon (4L) of water prior to irrigation
- Apply throughout the vegetative stage every 1-2 weeks, up to 6 times total per plant

PRODUCT COMPOSITION

CONTAINS NON-PLANT FOOD INGREDIENTS
Soil Amending Guaranteed Analysis

Active Ingredients

Microorganism.....	10%
Endomycorrhizal Fungi:	
Glomus intraradices.....	2,850 propagules/g
Glomus mosseae.....	750 propagules/g
Beneficial Bacteria:	
Bacillus subtilis.....	10,000,000 CFU/g
Bacillus aryabhattai.....	10,000,000 CFU/g
Bacillus pumilus.....	10,000,000 CFU/g
Bacillus velezensis.....	10,000,000 CFU/g
Bacillus licheniformis.....	10,000,000 CFU/g
Humic Acid derived from Leonardite.....	15%
Total Other (Inert) Ingredients (As non-plant food ingredients: Carrier).....	75%

TERMS OF USE:

For horticultural use only. Contact for product usage: info@dynamyco.com. Product is proprietary of Groundwork BioAg Ltd. Reproduction or reverse engineering prohibited. Groundwork BioAg, Ltd. is not responsible for product use and makes no warranties regarding product's performance. Liability limited to purchase price.

USAGE AND STORAGE

Protect from direct sunlight and store in a dark, dry and cool place between 5-25C (40-77F). Do not refrigerate or freeze. Keep container tightly sealed after use. Minimize use of starter phosphorus fertilizer to enhance mycorrhizal symbiosis.

* To maximize your plants' potential, apply DYNAMYCO granular mycorrhizal inoculant when transplanting and starting seedlings, and continue applying DYNAMYCO Spark throughout the vegetative state.
