WHY NEW WEST ?

Every day, we have fun imagining and creating vans that connect people to the essential. We bring together a community of enthusiasts, with whom we share an inspiring vision; a world where it is allowed to slow down, explore and savor life.

For us, NEW WEST is the new North. A new direction to avoid getting caught in our era's whirlwind of fast-paced life, where we are constantly seeking to automate and improve productivity.

The community, products and experiences we develop are about living life to the fullest, with ease.

Minimal	Oasis	Nordik	Zen	Terra
Inspired by minimalist decors, this two-toned white and gray style is timeless.	We feel good in this refined oasis. We love the touch of warmth the wood brings into this decor.	This decor feels like a nordic cottage atmosphere, while its black contrast adds a touch of elegance.	We can only be zen with this aesthetic that features rich materials and warm tones	We love organic shades that remind us of nature, with a touch of audacity!
