

SMARTGRIP INDUSTRIAL MAT ROLL

SPECIALITY MAT

The SmartGrip Industrial Mat Roll is designed to call attention to hazards and create a non-slip path for foot traffic in industrial or factory spaces.

With a highly visible yellow and black pattern running down both edges of the mat roll, this mat offers a floor safety solution that is also durable, highly absorbent, easy to maintain, while having a very low profile.

The adhesive backing keeps the mat in place without shifting or bunching up, and is suitable for many floor types including: concrete, vinyl tile, ceramic tile, quarry tile and linoleum.

It is extremely durable and will stay in place for up to 3 - 6 months, depending on conditions and traffic patterns.

FEATURES & BENEFITS

- Highly visible yellow and black pattern
- Highly absorbent
- Extremely durable - can even withstand a forklift
- Easy to install and maintain
- Sticks to the floor with a super-tight grip, but peels up easily when required
- Easy to customise and create your own safety paths
- Prevents slips, trips, and falls caused by wet floors
- Optional safety knife and basic cutting tool
