LIFT sofa

LIFT sofa product sheet

Inspired by the graceful mechanics of elevators, the LIFT sofa takes both its name and aesthetic cues from these influences. Created by the hands of Julien Renault, this masterpiece boasts a distinct feature - a pristine wooden framework on its back that mirrors the contour of the cushions, unspoiled by the intrusion of bolts or screws. With its understated yet captivating aesthetic, the LIFT sofa effortlessly complements a multitude of environments. Its discreet charisma exudes an inviting charm that seamlessly merges comfort and sophistication.
