AMA vase

AMA vase

ABOUT

Born of the natural characteristics of Estremoz marble, the AMA vases are an elegant and simple display for fresh flowers, dried botanicals, or faux blooms, among many other uses. Manuel Aires Mateus imagined a vase showing an unexpected material for this object, more solid, stony, and deeply contrasting with the fragility of a flower. Hand carved and polished, these pieces are a celebration of craftsmanship, tradition and modernism.

CARE AND MAINTENANCE

The following care instructions are recommendations only.

Marble

Marble is a natural material that gives each piece a distinct and unique appearance. It is sensitive to liquids and if they are not removed immediately, they may leave a permanent stain. For this reason, MOR marbles are treated with a sealer that makes the pieces more resistant to stains.

For daily care and cleaning, it is recommended to use a cleaning agent specifically developed for stone or marble. Wipe all spills as soon as they occur. Avoid using abrasive cleaning agents or harsh cleaning detergents on marble, as this will permanently damage the surface.
